EXECUTIVE SUMMARY

The Public Service has negotiated the terms for a lease with Transcona Golf Club (1982) Inc. ("the Golf Club"). The Golf Club will operate, manage, and maintain the City property located at 2120 Dugald Road. The golf course area and boundaries are shown in Schedule A.

The current Lease Agreement with the Golf Club expired on December 31, 2023. The Public Service has proposed a new 25-year lease which includes the previous condition that the course be publicly accessible.

In addition to an annual rent, the Golf Club will be responsible for all expenses related to operating and maintaining the Leased Area.

The Ward Councillor has been notified of the proposed lease and did not identify any concerns.

RECOMMENDATIONS

1. That, subject to the approval of two-thirds of all Council members (pursuant to subsection 205(2) of The City of Winnipeg Charter), the proposed Terms and Conditions for a Lease Agreement in favour of Transcona Golf Club (1982) Inc. for the proposed lease of 2120 Dugald Road, as identified as "Transcona Golf Club" on Misc. Plan No. 15097 and attached hereto as Schedule A, be approved.

2. That the City enter into, execute, and deliver a Lease Agreement with Transcona Golf Club (1982) Inc. and such other agreements as determined necessary by the City Solicitor/Director of Legal Services to implement the intent of the foregoing (the "Ancillary Agreements").

3. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

In accordance with subsection 205(2) of The City of Winnipeg Charter, no land acquired and used by the City for parks purposes on the day the Charter came into force can be disposed of without two-thirds approval from all members of Council.

IMPLICATIONS OF THE RECOMMENDATIONS

The proposed Lease Agreement has an initial term of 25 years and can be terminated with two years' written notice by either party.

Transcona Golf Club (1982) Inc. will assume responsibility for all expenses related to the operation and maintenance of the Leased Area.

HISTORY/DISCUSSION

The Transcona Golf Course was established in 1931 as a nine-hole course southwest of Regent Avenue and Plessis Road. It moved to its current address in 1949 on land previously acquired by the Town of Transcona. The golf course is eighteen holes and operates on a semi-private basis (publicly accessible). The current tenant is the Transcona Golf Club (1982) Inc., which is a non-profit organization registered in Manitoba.

On July 28, 1981, the Committee on Finance and Administration approved a lease for the Transcona Golf Course to the Transcona Mixed Golf League Inc., now known as Transcona Golf Club (1982) Inc., for a term of 20 years from November 1, 1981, to October 31, 2001.

On January 1, 1999, the tenant entered into a new lease for a 25-year term which expired on December 31, 2023.

Transcona Golf Club (1982) Inc. requested another 25-year lease term to amortize future capital improvements on the course. The Public Service recommends entering a new lease as the City maintains a successful relationship with the existing tenant.

The proposed lease was circulated to City departments and no objections were received. It should be noted that some portions of the golf course may be required for future transportation improvements, such as twinning Plessis Road or the construction of collector roads. Since the timing of construction is unclear, a new lease has been proposed with appropriate safeguards – the City has the right to amend the lease to provide for future road projects. Consultations with the community and tenant will be required should Council approve any transportation projects.

Golf Services was consulted during the lease negotiations and support the terms and conditions. Golf Services has developed a fee structure (annual rent) for the semi-private courses which is outlined in Schedule B of this report. Anticipated revenue in 2024 is projected to be $7,500 based on 30,000 rounds of golf.

The Risk Management Division of Corporate Finance reviewed the insurance requirements for this proposed Lease and their comments have been incorporated into the Terms and Conditions.

No appraisal was conducted for the subject property as golf courses are rarely leased, and golf courses do not represent the highest and best use of a site. The City produces an annual valuation of developable land through the Development Agreement Parameters, with the current value set at $165,000 per acre. Applying this rate to the subject property generates a value over $20,000,000 and far exceeds golf course land rent. The annual land value is comparable to development sites which have recently sold in South Transcona.

This report seeks approval of the proposed lease Terms and Conditions as negotiated. The lease agreement will retroactively commence as negotiated effective January 1, 2024.

The proposed lease is considered to represent the best value for the City, as it generates revenue for Golf Services and provides a recreation option for residents.

The Ward Councillor has been notified of the intentions of the Public Service and did not identify any concerns.

SCHEDULE D – Winterization Requirements

The following activities are performed at the end of the golf season in preparation for winter:

i) Winterization of the Irrigation System for the Golf Course

Winterization of the irrigation system normally occurs in mid-October before frost appears regularly. This will involve using an air compressor to force pressurized air through the system to remove all possible water in the lines. This includes the securing of the pump. The pump should be stored in a secure facility for thewinter months and should be serviced as required.

ii) Application of Winter Chemicals

The spreading of a dry chemical mix of fertilizers and fungicides on the greens is an important work activity which normally requires two applications immediately before snowfall. Once the greens are treated, no golfer should be allowed on the greens for the balance of the season.

iii) Green Cover

Greens covers are preferred, but at a minimum, snow fencing should be placed around each green and/or tree branches or brush should be placed on each green to trap and retain an insulation blanket of snow.
