We worked tirelessly with Councillor Lukes and Chambers on the project and to ensure we brought forward an apartment that fitted the surround community as best as possible, plus ensuring that the landscaping was done in such a way that all could benefit. The coulee and greenspace to the north of the building was designed and built in a way that we were conscious of the active stream that flows through the property, while ensuring we created a functional space that support a naturalized landscaping design without requiring excessive maintence. As requested, please see attached supporting plans etc.
