Comments in writing: This proposal violates city rules. That is has got this far, makes a mockery of the city's best practice rules.
Efficiency Manitoba has promised to help this private group buy a new furnace. There is no need for the city to swerve out of its lane in this way.
The report being used to sell this idea is missing a lot of information. How much will the job cost overall? What are the consequences of the UCIM paying what EM does not? In the years what I served on the Board of other United Church congregations, we funded our own projects. We never asked city ratepayers to buy us stuff.
Have the proponents obtained a position letter from the integrity commissioner for this (or any other) plan to spend taxpayer funds to benefit a small to mid-size group of voters?
