Fleet Size

Fleet CAMFM Size

In 2022 there was a total of 1,763 units (chassis only). This graph below shows the breakdown of units by category from 2020 – 2022.

Light Duty

- Municipal and Emergency vehicles (Light Duty Trucks, Vans (Cargo and Passenger), Sedans and SUVs) with GVW < 4,500 kg.
- Construction Equipment with Original purchase cost less than $30,000.

Medium Duty

- Municipal and Emergency vehicles (Medium Duty Trucks, Vans and SUVs) with GVW between 4,500 kg and 9,000 kg.
- Construction Equipment with Original purchase cost between $30,000 and $100,000.

Heavy Duty

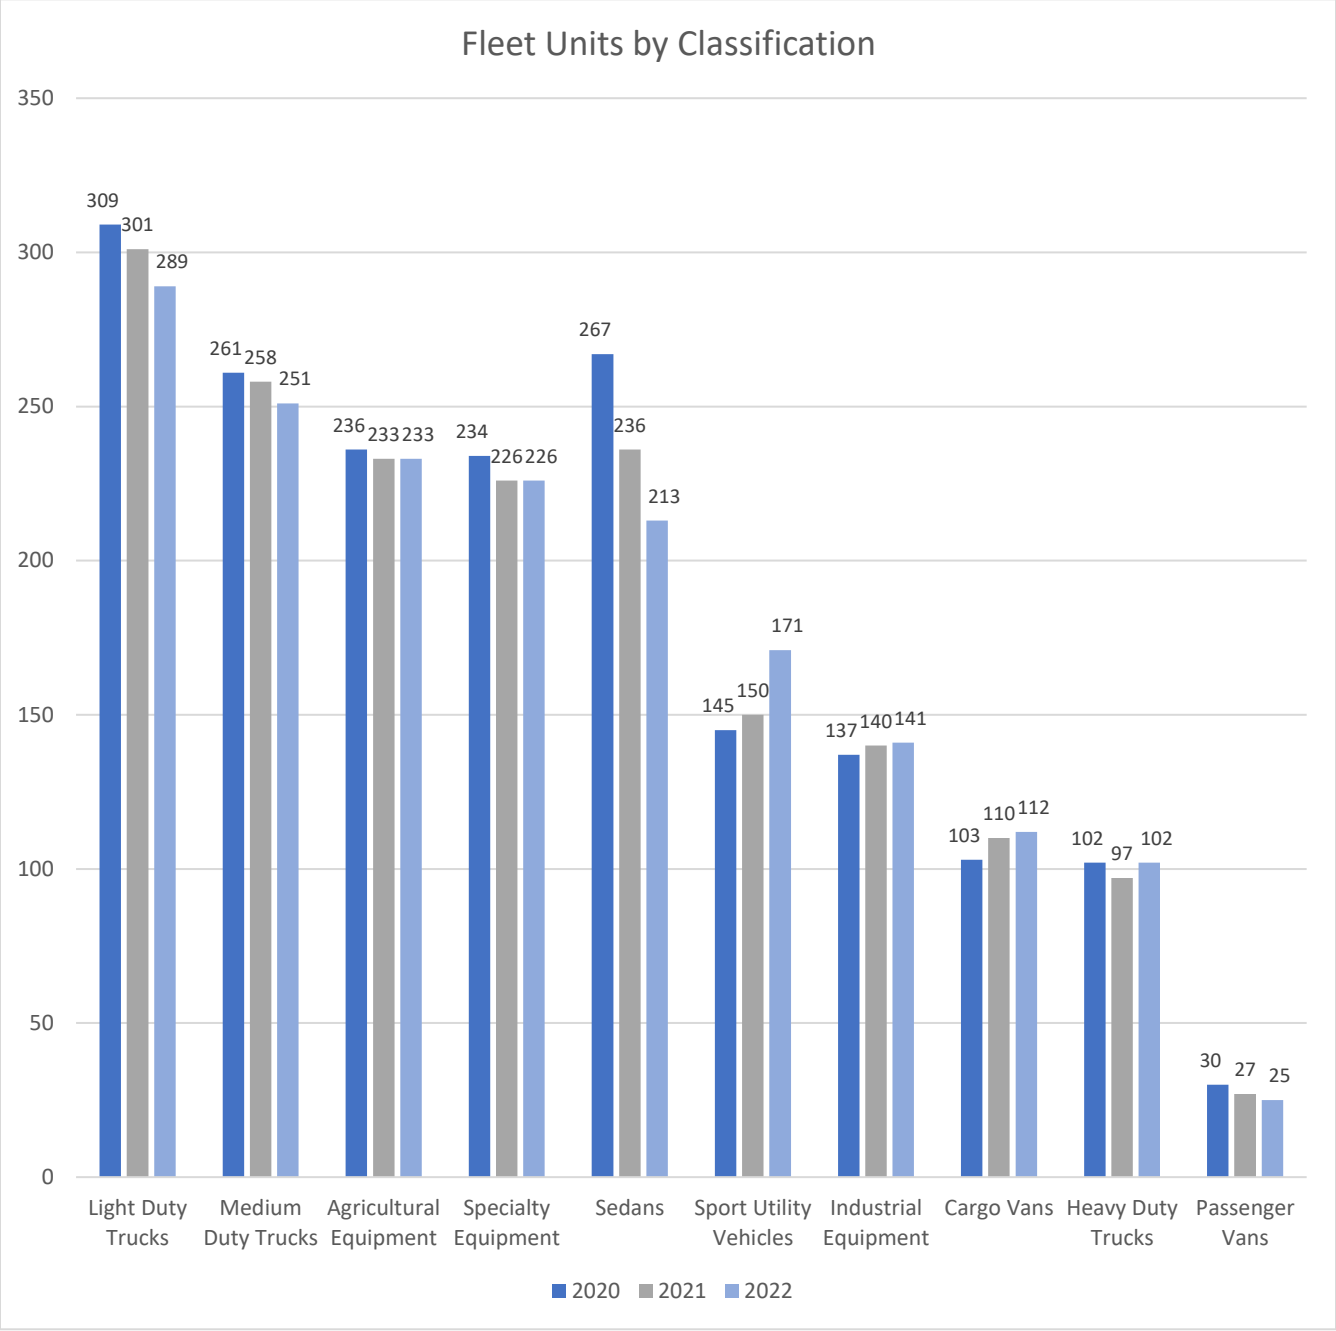

- Heavy Duty Trucks with GVW greater than 9,000 kg.
- Construction Equipment with Original purchase cost greater than $100,000.

Miscellaneous

- All other equipment.

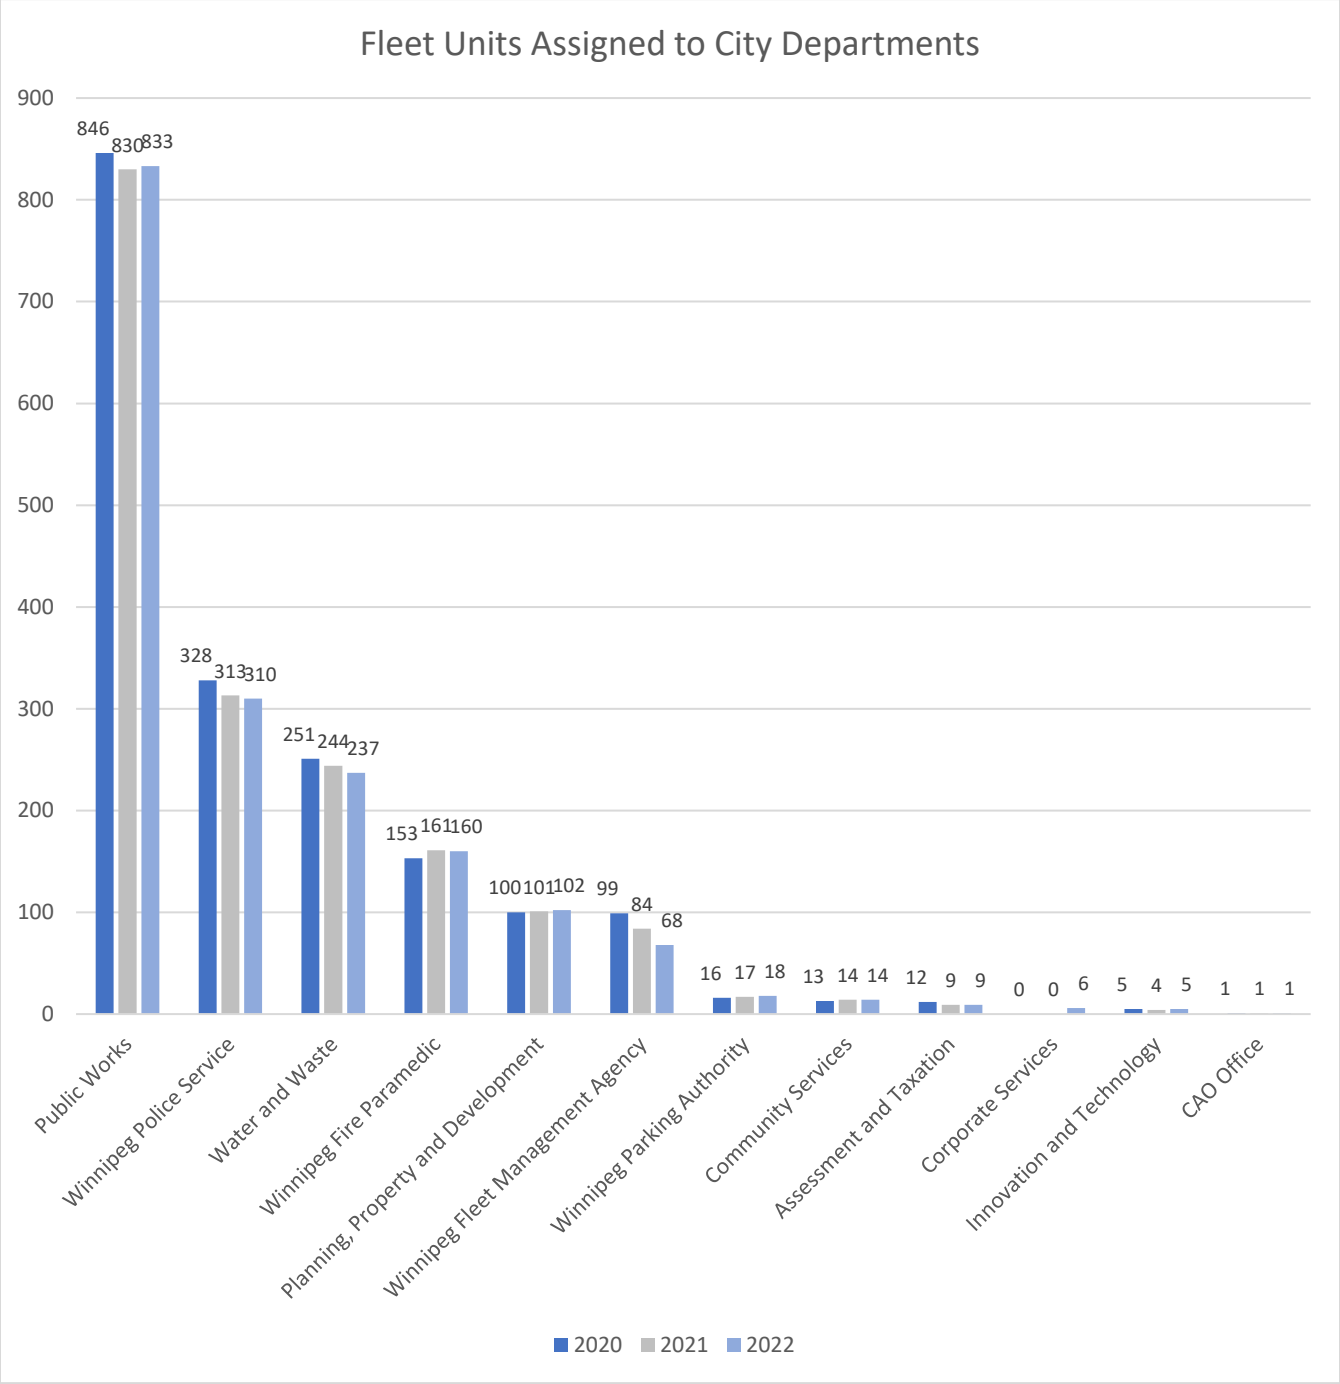

Fleet Units by Classification

The graph below shows the number of fleet units by classification for 2020 – 2022, chassis only.

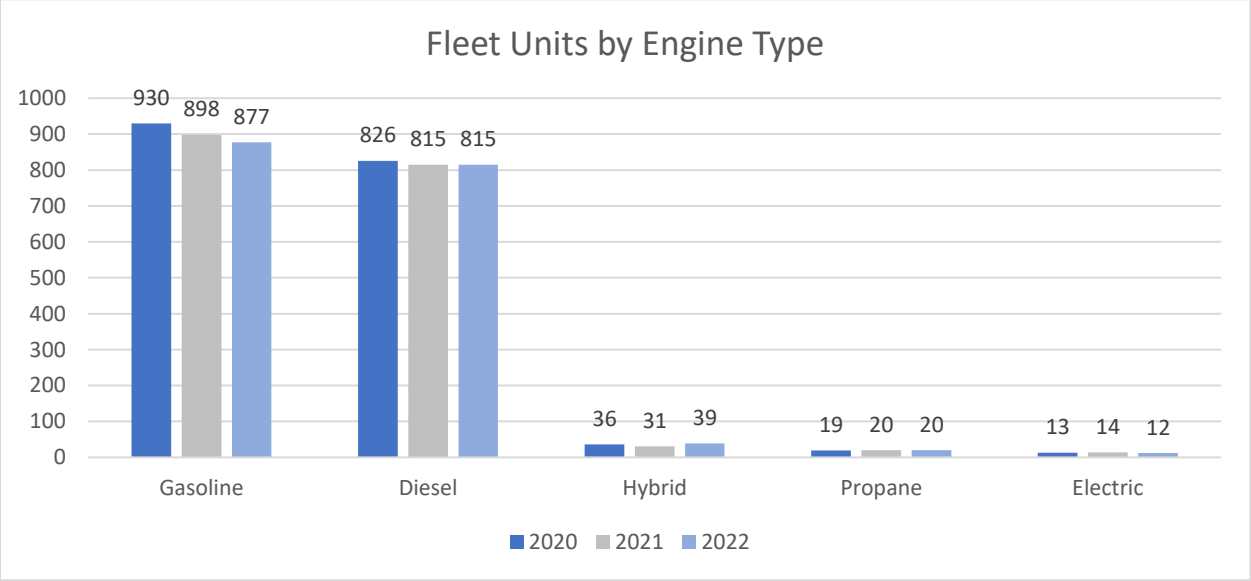

Fleet Units Assigned to City Departments

The graph below shows the number of fleet units by City of Winnipeg department for 2020 – 2022. These numbers include chassis only.

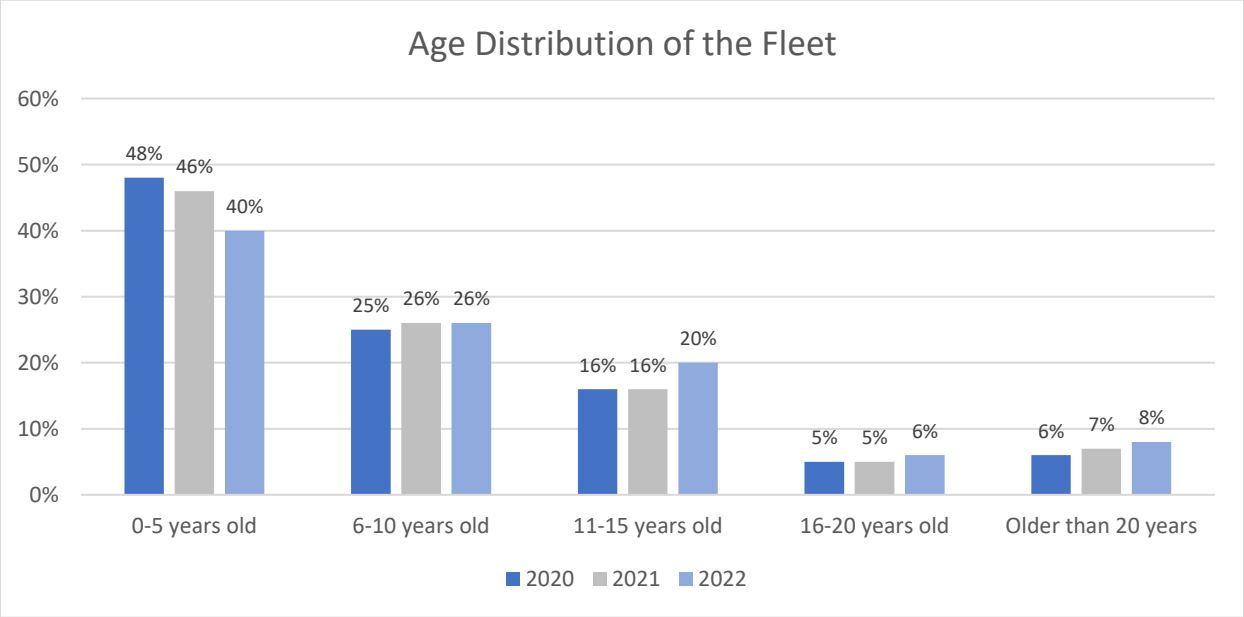

Fleet Units by Engine Type

WFMA has 5 fuel sites located across the City that fleet operators are able to access to fuel up vehicles and equipment. These fuel sites offer Diesel and Gasoline. There are however specialty units that require other sources of fuel. The units that are identified as Electric are made up of 2 electric vehicles (EV), with the remaining being specialty equipment (e.g., fork lifts, scissor lifts).

Age Distribution of Fleet

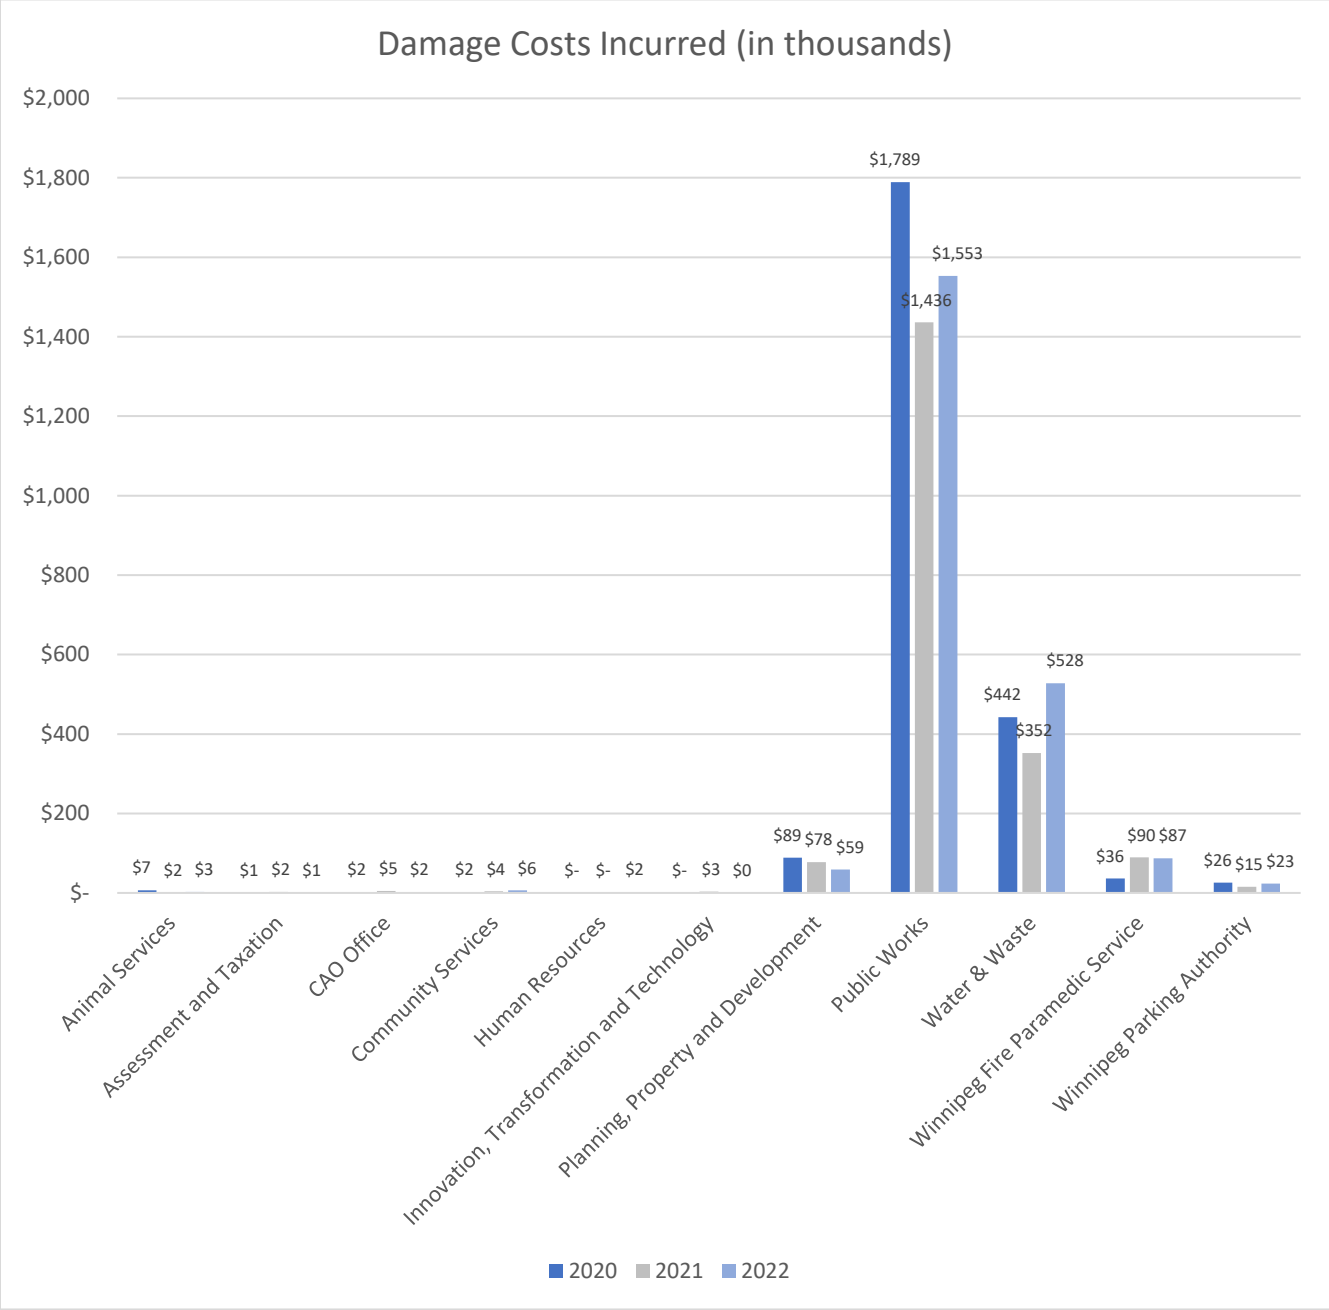

The figure below shows the age distribution of all active vehicles and equipment in the City's fleet from 2020-2022. The % of vehicles over 10 years old has increased from 2020.

Damage Costs

Total damage costs for 2020, 2021, and 2022 amounted to $2.4 million, $2.0 million, and $2.3 million, respectively. This chart includes departments where vehicles are serviced by Fleet Management Agency.

The total damage costs over the 3-year span amounted to $6.7 million.

Fuel Usage

In 2022 there was a total of 6.6 million litres of fuel used by city departments. This is comparable to amounts consumed in 2021 (6.4 million litres) and 2020 (6.6 million litres).

The figure below details the quantity of fuel used by city department (excluding external customers) from 2020 – 2022 and is shown in thousands of liters
