Comments in writing: The city has been spending more money than it has. This is neither prudent, nor consistent with our governing legislation. This problem has been chronic for years. Every time new, discretionary spending is discussed, officials are silent on the fact that we cannot afford current spending. Am I the only one here who can see what is happening?

Comments in writing: 9. A review of grant applications. With the frequency of councilors seeking to spend tax dollars in ways that violate the rules, some of the folks in the residents that I lead want more enforcement of the rules. Failure to follow rules leads voters to believe that governance no longer matters at city hall. Let's all work toward better fiscal management. We are nearly out of money, and must stop spending that is not essential.
