As the leader of my local resident's association, I must stress to you that we face far worse conditions than the folks you are helping out with your new sidewalk plows. Why do you ignore those whose only way to get out of the community is to walk hundreds of meters on an icy P3 road because there is no sidewalk for them? Our community has been raising this issue for years. Why have we been so completely ignored in policy like the one on today's Agenda?
