Prepared by McGowan Russell Group Inc.

October 2023

01 OVERVIEW

The public engagement for the proposed multi-family development for 134 Plaza Drive was structured as a mail out flyer with information on the project and link to the project website for further information and a questionnaire. Recipients of the flyer were provided a QR code and contact information to receive information. The overall response was low, but showed that the flyer was seen by the neighbourhood.

02 FORMAT

VIRTUAL ENGAGEMENT

Standard Press delivered to the residences and commercial units on Plaza Drive, Pembina Highway and Adamar Road. A total of 1,173 flyers were delivered. The flyers provided information on the project website and contact information. Five people responded by completing the survey. This is a 0.4% response to the number of dwellings contacted.

03 RESULTS

The postal codes indicated responses from the following locations. Note that one response did not provide their location (neutral on support of the vision of multi-family residential).

R3T 1W9 – Kebir Place (approximately 1.8km away)

R3T 0C2 – South Drive (approximately 2.5km away)

R3T 5S2 – Plaza Drive (approximately 300 metres away)

R3T 1R9 – Kelsey Ave. (approximately 2.4 km away)

Attached are the graphs summarizing the responses. No one was opposed to the vision (one person did not answer this question). One person was strongly against recommending living in this development to family/friends (one person did not answer this question). There was support for the turning circle improvements and the landscape buffer along the shared property line with the condos. Respondents were supportive and neutral regarding less vehicle parking and more bike parking to support active transportation.

Site should be developed with affordable units for lower income families and students. Space for onsite support services such as a family resource centre. This would assist new immigrant families. Connections could be made to services at the nearby Access centre.
