I am in favor of the huge delay in this business item. Hopefully this time can be put to good use. It should be long enough for staff to engage with EFFICIENCY MANITOBA, to produce a series of energy saving steps at far lower cost to city taxpayers than what is planned. It is sad that staff have not been required to present what has been done on this topic, as an interim report.

I consent to being contacted to participate in potential public engagement related to this matter.
Yes
