5. ALPR 7. Plate reader cameras: MPI has been buying these for the WPS; 14 in the past 3 years. Including the old ones, how many of these does the city have now? How many hours per year is the average ALPR in use by WPS? We are told that they are important tools for law enforcement. How many will sit unused? How many of the new ALPRs will be attached to patrol cars? How many will be in fixed locations (mounted on buildings and steel poles etc.?) On the matter of another law enforcement tool, how many WPS patrol vehicles, on an average day, feature forward-facing radar/ laser? Everyday use of these is a key to taking all the 100mph city-drivers off the road. There really is no other way to protect the public.
