Minutes– Council – December 12, 2024

Minute No. 69
Report – Standing Policy Committee on Public Works – November 29, 2024

Item No. 4 Speed Limit Reduction on Wellington Crescent

COUNCIL DECISION:

Council concurred in the recommendation of the Executive Policy Committee and adopted the following:

1. That the Winnipeg Public Service be directed to report back to the Standing Policy Committee on Public Works in 120 days with an interim solution to improve safety for cyclists (ahead of a more permanent WalkBike design study for separated cycling infrastructure can be undertaken), to allow for consideration for initial implementation in 2025.

2. That the Winnipeg Public Service be directed to work with community partners, including Bike Winnipeg to support public engagement and prioritization of Wellington Crescent within the City of Winnipeg plans and priorities in the upcoming Transportation Master Plan 2050 and updated Pedestrian and Cycling Strategies.

3. That the Winnipeg Public Service be directed to work with community partners, including Bike Winnipeg to support targeted stakeholder engagement, focusing on potentially impacted fronting property owners.

4. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

Report – Standing Policy Committee on Public Works – November 29, 2024

DECISION MAKING HISTORY:

Moved by Councillor Lukes,

That the recommendation of the Executive Policy Committee be adopted.

Carried

David Grant submitted a communication with respect to the matter.

Charlie and Deborah Guertin submitted a communication with respect to the matter.

EXECUTIVE POLICY COMMITTEE RECOMMENDATION:

On December 4, 2024, the Executive Policy Committee concurred in the recommendation of the Standing Policy Committee on Public Works, as amended, and submitted the following to Council:

1. That the Winnipeg Public Service be directed to report back to the Standing Policy Committee on Public Works in 120 days with an interim solution to improve safety for cyclists (ahead of a more permanent WalkBike design study for separated cycling infrastructure can be undertaken), to allow for consideration for initial implementation in 2025.

2. That the Winnipeg Public Service be directed to work with community partners, including Bike Winnipeg to support public engagement and prioritization of Wellington Crescent within the City of Winnipeg plans and priorities in the upcoming Transportation Master Plan 2050 and updated Pedestrian and Cycling Strategies.

3. That the Winnipeg Public Service be directed to work with community partners, including Bike Winnipeg to support targeted stakeholder engagement, focusing on potentially impacted fronting property owners.

4. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

DECISION MAKING HISTORY (continued):

STANDING COMMITTEE RECOMMENDATION:

On November 29, 2024, the Standing Policy Committee on Public Works submitted the following to the Executive Policy Committee and Council:

1. That the Winnipeg Public Service be directed to reduce the speed limit on Wellington Crescent, from River Avenue to Academy Road, to 30 km/h.

2. That the Winnipeg Public Service be directed to report back to the Standing Policy Committee on Public Works in 120 days with an interim solution to improve safety for cyclists (ahead of a more permanent WalkBike design study for separated cycling infrastructure can be undertaken), to allow for consideration for initial implementation in 2025.

David Grant submitted a communication in opposition to the matter

COMMUNITY COMMITTEE RECOMMENDATION:

On November 18, 2024, the City Centre Community Committee passed the following motion:

WHEREAS tragic deaths and troubling near-misses involving both pedestrians and cyclists on Wellington Crescent within the Fort Rouge-East Fort Garry and River Heights-Fort Garry Wards demonstrate an unacceptable level of risk posed to vulnerable road users traveling along this stretch of road;

AND WHEREAS Wellington Crescent between Academy Road and River/Stradbrook Avenue currently has no cycling facilities, forcing people on bike to ride in mixed traffic along a roadway with traffic volumes and speeds where separation of people on bikes is recommended, stands as a major gap in the city’s planned primary bicycle network;

Report – Standing Policy Committee on Public Works – November 29, 2024

DECISION MAKING HISTORY (continued):

COMMUNITY COMMITTEE RECOMMENDATION (continued):

AND WHEREAS Wellington Crescent is used by a high volume of pedestrian and bicycle traffic, with an anticipated doubling of that volume by 2030 (City of Winnipeg Climate Plan);

AND WHEREAS a significant increase in bike traffic during the months that Wellington Crescent between Academy Road and Guelph Street operates as a seasonal bike route with a 30 km/h speed limit highlights the strong desire for a permanent, year-round low-stress cycling route on Wellington Crescent;

AND WHEREAS the City of Winnipeg is currently finalizing updates to the Transportation Master Plan and Pedestrian and Cycling Strategies, which are expected to go before Council in the winter of 2025;

AND WHEREAS Wellington Crescent is identified as a high priority pathway within the draft bike route priority map, highlighting the need for safety interventions;

THEREFORE BE IT RESOLVED that the Standing Policy Committee on Public Works be requested to direct the Winnipeg Public Service to reduce the speed limit on Wellington Crescent, from River Avenue to Academy Road, to 30 km/h until such time that a low stress, all ages and abilities cycling route can be provided along this route;

BE IT FURTHER RESOLVED that the Winnipeg Public Service be directed to work with community partners, including Bike Winnipeg to support public engagement and prioritization of Wellington Crescent within the City of Winnipeg plans and priorities in the upcoming Transportation Master Plan 2050 and updated Pedestrian and Cycling Strategies.
