2. ***LOCATION***

(1) The subject lands are located at the north side of De Vos RD, abutting the west side of the CNR Letellier, 960 ft west of Pembina Hwy/PTH interchange.

3. ***PROPOSED DEVELOPMENT***

(1) Amend Servicing Agreement required under File DAZ 210/2024 by deleting De Vos RD future improvement payments:

Section III – Servicing Conditions

De Vos Road

The Developer shall pay to the City, in cash, on demand, their share of the cost of the following services to be constructed in De Vos Road, by others, along the full length of the Planned Area abutting Des Vos Road:

A 10.0m wide by 200 mm thick Portland cement concrete lane of pavement and all related works,

Street lighting,
Landscaping (trees and sod), and
A 1.5m wide by 100mm thick Portland cement concrete sidewalk,

all as determined by and to the satisfaction of the Director of Public Works.

4. RATIONALE

(1) De Vos RD bounded on the south side, west of the CNR Letellier, with 12.8 acres of Industrial zoned lands [3 property owners] that back onto PTH 100.
(2) Industrial land-users have occupied De Vos RD for several decades, using the same rural standard, gravel surface road.
(3) File DAZ 210/2024 101 De Vos [500 ft frontage] Developer also owns 106 De Vos RD [690 ft frontage] controlling 57% of frontage along De Vos RD: this landowner has no intention of changing their industrial land-uses and has not demanded upgrades to the gravel road.
(4) Commercial properties east of CNR front Pembina Hwy with no access points onto De Vos RD.
(5) Residential properties back onto the north side of De Vos RD with no access to De Vos RD.
(6) PTH ramp is on the south side of De Vos RD, east of the CNR, no access to De Vos RD.
(7) De Vos RD is primarily travelled by commercial vehicles such as truck tractors and semi-trailers.
(8) Minimal likelihood an intensification to commercial and/or residential land-uses to generate high volumes of light vehicles directly accessing De Vos RD.
(9) Council's recent approval of File DAZ 210/2024 indicates a high level of comfort for accommodating the continuation of industrial land-users along De Vos RD instead of changing to residential/commercial.
(10) Should there be any change of land-uses (commercial and/or residential) that require an urban standard roadway, a rezoning is required at which time the City can capture the improvements to De Vos RD to accommodate the demands of those land-users as no such demand exists today.
