REASON FOR THE REPORT:

All street and lane closings require the consideration of the Community Committee.

HISTORY:

In 1976, the Real Estate Division of the Land Surveys and Real Estate Department received an offer to purchase the property at 110 Perth Avenue and made an application to close the public lane so identified on the attached Misc. Plan No. 12277 for the purpose of incorporating it into the property for sale. The West Kildonan Community Committee rejected the application and recommended that the land be retained for recreational purposes.

In 1984, a second offer to purchase the property was received. The Parks and Recreation Department stated that the land was surplus to their needs, and the Lord Selkirk-West Kildonan Community Committee approved the sale of the land. Negotiations for the sale of the land were not successful, and the matter was abandoned.

The Real Estate Division has again applied to close the public lane, to incorporate the lane into the adjoining City property at 110 Perth and to offer the property for sale.
The lane is unimproved and serves no apparent public purpose.

DISCUSSION:

Administrative Approval

The proposal has been considered by all affected City departments and public utilities. There are no administrative objections to the closing.

Easements

The Water and Waste Department will require an easement for the maintenance of a catch basin and catch basin lead within the lane. The easement area will be the full width of the lane. Centra Gas has also identified an easement requirement.

No permanent structures will be allowed in the closed lane.

Transfer of Jurisdiction Over Public Rights-of-Way

The lane must be legally closed before it may be sold. Title to all public rights of way in Manitoba is vested in the name of the Province. The registration in the Winnipeg Land Titles Office of a closing by-law removes the public right of way status from the land and vests the ownership of the property in the City's name. The City is not entitled to dispose of the land until this has been done.
