PD 2 Pacific land giveaway. While there seems to be no evidence of wrongdoing, this sale of land should have followed the more ethically-certain, traditional route. When the land has been assembled, bids should be invited, all subject to published conditions, including how many low cost units must be provided. Doing this right will take no longer, and provides a level playing field for all interested developers.

Public engagement (optional)

I consent to being contacted to participate in potential public engagement related to this matter.
