Quote from the draft North Winnipeg Parkway Improvements Preliminary design Study regarding 125 Magnus Avenue:

> "In order to provide a reliable pathway linking Burrows Avenue and Pritchard Point Park, Option 2 and Option3 shows the acquisition of 125 Magnus Avenue with the demolition of the two existing buildings as shown on Figure 8-3 and 8-4. At the time of the report the building on this lot is boarded up and vacant. Acquiring this lot and installing the multi-use pathway along the upper bank area provides an all-season and very reliable connection for parkway users. The pathway could then be routed through Pritchard Point Park and connecting to the cut-through to Selkirk Avenue. Acquisition of this property is critical to fix the broken link in the transportation network whenever there is a high-water event or for people who do not feel comfortable going down to the riverbank in a forested area."
