THE CITY OF WINNIPEG

BY-LAW NO /2025

A By-law of THE CITY OF WINNIPEG to regulate the storage, collection and disposal of solid waste.

THE CITY OF WINNIPEG, in Council assembled, enacts as follows:

Short title

1 This By-law may be cited as the "Solid Waste By-law".

Definitions

2(1) In this By-law

"applicable fee" means a fee established and set by Council or by an individual or Council committee to whom Council has delegated the authority to establish or set the fee;

"base collection services" means the collection of solid waste for residential properties and multi-unit properties that the Director is required to offer under subsections 3(1) and (2);

"bulky waste" means large items of solid waste designated as such by the Director;

"Charter" means *The City of Winnipeg Charter*, S.M. 2002, c. 39;

"City" means The City of Winnipeg continued under section 8 of the Charter;

"city" means the geographical area within the jurisdiction of The City of Winnipeg;

"compostable waste" means solid waste designated as eligible for composting by the Director;

"commercial property" means a building or other property, or portion thereof, that is designed or used in whole or in part for uses other than for residential occupancy, and includes a building, property, or portion thereof that is used as, or for, any of the following purposes:

- a hotel or motel;
- a hostel;
- a hospital;
- an elementary or junior high school;
- a senior high school;

DRAFT

- a commercial school;
- a college or university; or
- a dormitory.

"Council" means the council of the City;

"designated employee" means the Director or any employee of the City to whom the Director has delegated authority to administer or enforce this By-law or to exercise any of the powers given to the Director under this By-law;

"Director" means the Director (or acting Director) of the Water and Waste Department of the City;

"dwelling unit" means

(a) a building or portion of a building designed or used for residential occupancy by a single family, including cooking, eating, sanitary and sleeping facilities; or

(b) a living unit;

"eligible container" means a container designated by the Director as eligible for having specific types of solid waste contained within it and collected as part of the City's solid waste services;

"garbage" means solid waste that is not:

(a) compostable waste;

(b) recyclable waste;

(c) special waste;

(d) bulky waste; or

(e) non-collectible waste;

"hazardous waste" means:

(a) "household hazardous material and prescribed material" as defined in the *Hazardous Material and Prescribed Material Stewardship Regulation MR 16/2010*;

(b) "hazardous waste" as defined in *The Dangerous Goods Handling and Transportation Act,* C.C.S.M. c. D12;

(c) other solid waste designated as hazardous waste;

DRAFT

“living unit” means any portion of a neighbourhood rehabilitation home, care home, assisted living facility, or single room occupancy that is used as the sleeping area for one or more individuals;

“multi-unit property” means a building, or portion of a building, which has eight or more dwelling units in total and includes a building or portion thereof that is used as an assisted living facility;

“non-collectible waste” means solid waste designated by the Director as not eligible for collection as part of the City’s solid waste services;

“recyclable waste” means solid waste designated by the Director as eligible for recycling as part of the City’s solid waste services;

“residential property” means

(a) a building, or portion of a building, which has seven or fewer dwelling units in total;

(b) a care home; or

(c) a mobile home;

“solid waste” means all discarded waste materials except liquid or semi-liquid wastes, and includes:

(a) bulky waste;

(b) compostable waste;

(c) garbage;

(d) non-collectible waste;

(e) recyclable waste; and

(f) special waste;

“solid waste disposal site” means a site designated by the Director for the disposal of one or more forms of solid waste, and may include an incinerator, a resource recovery facility, a resource management facility, a recycling facility, a recycling depot or a composting facility;

“solid waste services” means programs, systems and facilities provided, implemented or managed under this By-law for the collection, storage, handling, processing and disposal of solid waste;

“special handling” means extraordinary measures necessary for the collection of solid waste due to its location, including manual collection or the use of specialized equipment not otherwise employed by the City for solid waste collection;

“special waste” means solid waste designated by the Director as requiring specialized

DRAFT

handling in its collection, processing, storage or disposal due to the nature of the solid waste, and may include hazardous waste, electronic waste, pharmaceutical waste or biomedical waste;

"street" means any place or way, including any structure forming part thereof, which or any part of which the public is ordinarily entitled to use for the passage of vehicles or pedestrians, with or without fee or charge therefor, and includes all the space between the boundary lines thereof and includes:

(a) roadways;

(b) sidewalks;

(c) medians;

(d) boulevards;

(e) traffic islands;

(f) private accesses; and

(g) back lanes.

"vacant residential property" means a building containing between one and seven dwelling units that is not being used or occupied.

2(2) When used in this By-law, the following terms have the same meaning as under section 48 of the Winnipeg Zoning By-law:

(a) **"hotel or motel"**;

(b) "**hostel**";

(c) "**hospital**";

(d) "**protection and emergency services**";

(e) "**elementary or junior high school**";

(f) "**senior high school**";

(g) "**commercial schoo**l";

(h) "**college or university**";

(i) "**dormitory"**;

(j) **"family"**;

(k) "**mobile home**";

DRAFT

(l) **“assisted living facility”;**

(m) **“neighbourhood rehabilitation home”;**

(n) **“single room occupancy”**; and

(o) **“care home”**

Base collection services for residential and multi-unit properties

3(1) Subject to sections 4 and 15, the Director must ensure that each residential property is offered eligible containers and collection services of 240 litres per week for each of garbage and recyclable waste collection for each dwelling unit.

3(2) Subject to sections 3(3) and 15, the Director must ensure that each multi-unit property is offered collection services of 120 litres per week for each of garbage and recyclable waste for each dwelling unit.

3(3) Despite subsection 3(2), the designated employee may decline to offer base collection services to a multi-unit property if doing so would require special handling of the garbage or recyclable waste.

3(4) The designated employee must determine the type, size and number of containers required in order to provide the collection services offered under this section.

Reduction in level of base collection services for residential properties

4(1) Upon application and payment of the applicable fee, the owner of a residential property may seek a reduction in the base collection services provided to the property.

4(2) If the owner of a residential property that contains between two and seven dwelling units can demonstrate to the satisfaction of the designated employee that one or more dwelling units on the residential property are not available to be occupied and will be unavailable to be occupied for a period of six months or more, and if the designated employee is satisfied that

(a) the reduction of solid waste collection services sought by the property owner will nonetheless result in the occupants of the property continuing to receive solid waste collection services sufficient for their needs; and

(b) the reduction will not result in garbage or other solid waste accumulating on the property in contravention of The Neighbourhood Liveability By-law or of *The Public Health Act*, C.C.S.M. c. P210.

the designated employee may approve a reduction of the base collection services provided to the property under subsection 3(1) commensurate with the number of dwelling units that are not available to be occupied.

4(3) Upon providing 30 days’ notice to the property owner, the designated employee may increase the level of collection services previously reduced in accordance with subsection 4(2) if they conclude that:

DRAFT

(a) the dwelling units that were previously unavailable to be occupied are now occupied or available to be occupied; or

(b) under the reduced level of collection service,

(i) the occupants of the dwelling units are not receiving solid waste collection services sufficient for their needs; or

(ii) garbage or other solid waste has accumulated or is accumulating on the property in contravention of the Neighbourhood Liveability By-law or of *The Public Health Act*, C.C.S.M. c. P210.

4(4) Upon receiving an application from the owner of a vacant residential property, the designated employee may approve a suspension of solid waste collection services to that property if the owner provides the designated employee with a copy of one of the following documents:

(a) a Boarded Building Permit;

(b) a Boarded Building Exemption Certificate; or

(c) a demolition permit.

4(5) Where the designated employee approves the suspension of solid waste collection services to a vacant residential property, those collection services must be suspended

(a) for the length of time that the relevant Boarded Building Permit or a Boarded Building Exemption Certificate is in effect; or

(b) where a demolition permit has been issued, until utility bills for water or wastewater services are issued to that property.

4(6) Where solid waste collection services are suspended under subsection 4(4), the owner must return any eligible containers that have been issued to them.

4(7) As a condition of any approval granted under subsections 4(2) or 4(4), the property owner must notify the designated employee whenever any unoccupied dwelling units in the property are occupied or available to be occupied.

Additional collection services for residential and multi-unit properties upon request

5(1) At the request of the owner of a residential property and upon payment of the applicable fee, the designated employee may provide the residential property with additional collection services to a maximum of 600 litres per week of each of garbage and recyclable waste per dwelling unit.

5(2) At the request of the owner of a multi-unit property and upon payment of the applicable fee, the designated employee may provide the multi-unit property with additional collection services to a maximum of 240 litres per week of each of garbage and recyclable waste per dwelling unit. Additional collection services above the maximum may be approved by the

DRAFT

Director at their discretion.

5(3) When deciding whether to provide additional collection services under subsections 5(1) or 5(2), the designated employee may consider any information they consider relevant, including:

(a) the total number of residents living at the property;

(b) inspections and observations by City employees;

(c) any other evidence that the current level of collection services provided to the property is inadequate.

5(4) If the designated employee is satisfied that

(a) the cancellation or reduction in the level of additional collection services will nonetheless result in the occupants of the property continuing to receive solid waste collection services sufficient for their needs; and

(b) the cancellation or reduction in the level of additional collection services will not result in garbage or other solid waste accumulating on the property in contravention of The Neighbourhood Liveability By-law or of *The Public Health Act*, C.C.S.M. c. P210.

the designated employee may cancel or reduce the level of any additional collection services provided to the property under this section.

Collection services for commercial properties

6(1) At the request of the owner or occupant of a commercial property and upon payment of the applicable fees, the designated employee is authorized, at their discretion, to agree on behalf of the City to provide solid waste collection services to that property upon terms and conditions the Director considers appropriate to protect the interests of the City.

6(2) Unless the contract or agreement with the owner or occupant of a commercial property provides otherwise, the designated employee must provide at least 30 days' notice to the owner or occupant of a commercial property before terminating the provision of solid waste collection services to the property.

6(3) The designated employee is hereby authorized to approve and to enter into contracts and agreements consistent with this section in respect of the provision of solid waste collection services by the City to commercial properties.

6(4) The exercise of discretion by a designated employee under this section is not subject to appeal.

Mandatory fees for residential and multi-unit properties

7(1) Subject to subsections 7(2) and 7(3), a fee for base collection services is hereby imposed in an amount set by Council from time to time for each dwelling unit on or in a residential property.

DRAFT

7(2) Where a reduced level of base collection services has been approved under section 4, the total fee imposed under subsection 7(1) is reduced by an amount commensurate with the reduction.

7(3) The fee imposed under subsection 7(1) is not payable in respect of a residential property for the period of time during which base collection services are suspended or refused in accordance with sections 4 or 15, as the case may be.

7(4) Subject to subsection 7(5), a fee for base collection services is hereby imposed in an amount set by Council from time to time for each dwelling unit on or in a multi-unit property.

7(5) The fee imposed under subsection 7(4) is not payable in respect of a multi-unit property to which the designated employee declines to provide base collection services under subsection 3(3) (*collection services would require special handling*), or for the period of time during which base collection services are refused or suspended in accordance with section 15.

Classification of residential, multi-unit and commercial properties

8(1) If a portion of a property falls under the definition of a residential property or multi-unit property, and another portion of the same property falls under the definition of a commercial property, then the portion of the property that is classed as either a residential property or multi-unit property is subject to mandatory fees imposed in accordance with section 7, while the portion that is classed as a commercial property is subject to section 6.

8(2) For greater certainty, the ownership of a property or of dwelling units in a residential property or a multi-unit property does not affect the number of dwelling units associated with that property. In particular, the fact that dwelling units are owned pursuant to *The Condominium Act*, C.C.S.M. c. C170 does not change their status as dwelling units within a property for the purposes of this By-law.

Determination of classification and number of dwelling units

9(1) Where the classification of a property, or the number of dwelling units associated with a property, cannot be determined in accordance with another provision of this By-law, the designated employee shall determine the classification of the building or the number of dwelling units on the property, as the case may be.

9(2) In determining the classification of a property, or the number of dwelling units associated with a property, the designated employee may use any information they consider relevant, including one or more of the following:

(a) inspections and observations by City employees;

(b) the classification of a property by the City, or number of dwelling units attributed to a property by the City, for the purposes of assessment and taxation;

(c) the information provided on an occupancy permit issued under the Winnipeg Building By-law;

DRAFT

(d) the permitted uses for a property under the zoning by-law applicable to it.

9(3) The designated employee shall reclassify a property, or redetermine the number of dwelling units associated with the property, where there is a change in the property or the usage of the property sufficient to justify such reclassification or redetermination.

Billing and payment of fees

10(1) For the purposes of this section, a property owner is the owner of the land on which dwelling units are located or, in respect of dwelling units owned pursuant to *The Condominium Act*, C.C.S.M. c. C170, the property owner is the owner of a condominium unit.

10(2) Subject to this section, the property owner must pay the fee imposed under section 7 for each dwelling unit on the property within 30 days after the fee has been imposed.

10(3) For the purposes of billing and payment, the designated employee may add the fees imposed under section 7 to a utility bill issued in respect of the water and wastewater services provided to the property in which the dwelling units are located.

10(4) For greater certainty, where a utility bill for water or wastewater services is issued to the condominium corporation that is responsible for the control, management and administration of the common elements of the property in which the condominium unit is located (pursuant to the Water By-law or the Sewer By-law), the designated employee is authorized to add the fees payable under this By-law by each owner of an individual condominium unit to that utility bill. If the condominium corporation fails to pay these fees, the designated employee is authorized to collect the fees from each owner of a condominium on the property.

Administrative powers of Director

11(1) The Director is authorized to provide, implement and manage solid waste services in the city in a manner consistent with this By-law and with resolutions of Council.

11(2) The authority in subsection 11(1) includes the power to:

(a) designate types or items of solid waste as bulky waste, compostable waste, garbage, hazardous waste, non-collectible waste, recyclable waste, and special waste;

(b) establish schedules for the collection of solid waste from properties and adjust the schedules as the Director determines to be appropriate;

(c) set out the types of solid waste that are collected or accepted for disposal, and the types of waste that are not to be collected or accepted for disposal;

(d) establish rules for the collection of solid waste, which may, among other things:

(i) include different rules for different types or volumes of solid waste or for different types of properties which produce the solid waste, and

(ii) require that, in order to be eligible for collection, all or certain categories of solid waste must be contained in specified eligible containers and set out in

DRAFT

particular locations at particular times;

(e) designate containers as eligible containers;

(f) establish rules for the storage of solid waste on property or on streets, including rules for enclosures holding solid waste and for the storage of solid waste set out for collection;

(g) designate solid waste disposal sites, including sites for the disposal of special waste, and establish rules for their operation, including rules about the types of solid waste that are allowed to be deposited at the sites, rules for who can deliver different types of solid waste to the sites, and rules about processing or removing material deposited at the sites;

(h) designate sites within the city for disposal of specific items or forms of solid waste; and

(i) determine how persons responsible for paying fees and charges under this By-law will be notified about the amount of the fees and charges, and when and how to make payments.

11(3) Where the Director exercises their authority under this By-law in a way that affects general services provided to, or imposes general requirements on, residents and businesses located within the city, the rules, designations, determinations and other actions of the Director take effect only after they have been:

(a) communicated in writing to the City Clerk; and

(b) posted on the City's website.

11(4) In addition to meeting the requirements of subsection 11(3), where the Director acts under clause 11(2)(b) to adjust or change, either temporarily or permanently, a schedule for the collection of solid waste from private properties, the Director must release a communication to the media that provides information about the adjustment or change.

11(5) The authority in subsection (1) includes the authority to collect or arrange for the collection of solid waste located within a street or right of way, whether or not it is within an eligible container.

11(6) The Director may appoint City employees as designated employees under this By-law.

Prohibitions

12(1) A person must not contravene a rule, designation, or requirement issued by the Director in accordance with this By-law.

12(2) The owner and occupant of a property are each responsible for ensuring that solid waste on the property is stored and set out for collection in compliance with rules made by the Director under section 11.

12(3) A person must not:

DRAFT

(a) remove solid waste from one property and deposit it on another property, unless that action complies with a rule, designation or requirement issued by the Director;

(b) place solid waste from one property into any container that belongs to the owner or occupant of another property or has been issued for the use of the occupants of another property;

(c) set out solid waste for collection from a property unless the solid waste originates from that property;

(d) place any solid waste that has not been designated as recyclable waste into a container designated as eligible exclusively for recyclable waste, or place waste that has not been designated as compostable waste into a container designated as eligible exclusively for compostable waste;

(e) place any solid waste designated as special waste or non-collectible waste into a container designated as eligible exclusively for garbage;

(f) scavenge, pick through or remove solid waste that is located at a solid waste disposal site without the authorization of the Director;

(g) scavenge, pick through or remove solid waste that is placed in the street in an eligible container for collection unless the person is the owner or occupant of the property to which the container has been issued, or the person has been given permission by the owner or occupant of the property on which the solid waste is located;

(h) place solid waste in a street for collection in a manner or in a location that poses a hazard; or

(i) damage or deface an eligible container.

12(4) The owner of a vehicle and the person driving the vehicle must each ensure that the vehicle is not used to transport solid waste that has been scavenged in violation of clause 12(3)(f) or (g).

12(5) Any person who produces special waste must ensure that it is taken for disposal to a waste disposal facility designated by the Director for the disposal of special waste.

12(6) The owner and occupant of a property must ensure that:

(a) snow and other obstacles do not block access to an eligible container for collection purposes;

(b) the approach to eligible containers placed on private property must be maintained and kept free of ice; and

(c) no obstacle, including a vehicle, is located on a street or back alley next to the property in a way that obstructs the passage or operation of a vehicle used to

DRAFT

collect solid waste as part of the City's solid waste services.

12(7) The owner of a vehicle must ensure that it is not stopped, parked or permitted to remain stationary on a street or back alley so that it obstructs the passage of a vehicle engaged in the provision of the City's solid waste collection services. Where a vehicle is in contravention of this provision, a special constable or other peace officer with authority to enforce this By-law is authorized to act under section 243 of *The Highway Traffic Act*, C.C.S.M. c. H-60 to have the vehicle moved or stored in a suitable place.

Property owner's responsibilities for eligible containers

13(1) A property owner who is receiving solid waste collection services from the City must ensure that any eligible containers on their property:

(a) are clean and odour-free;

(b) are stored on private property other than when placed on a street for collection;

(c) are stable and placed on a flat surface;

(d) are available for the storage of solid waste at all times; and

(e) are kept free of any ice or snow accumulations that might hinder or prevent collection.

13(2) Upon request by a designated employee, the owner of a property must surrender an eligible container that has been issued by the designated employee.

Enforcement powers

14(1) The Director has, and any designated employee to whom the Director delegates the authority to enforce or administer all or part of this By-law has to the extent of that delegation, the authority to conduct inspections and take steps to administer and enforce this By-law or remedy a contravention of this By-law and to provide services or do work in accordance with the Charter and, for these purposes, has the powers of a "designated employee" under the Charter.

14(2) Without restricting the general authority given to the Director and their delegates under subsection (1), they have the specific authority to

(a) inspect material being brought to a solid waste disposal site for disposal in order to administer and enforce this By-law; and

(b) exercise the authority of the City under *The Trespass Act*, C.C.S.M. c. T156 to prohibit individuals who have repeatedly contravened

(i) clause 12(3)(f), or

(ii) a rule, designation, or requirement issued by the Director in accordance with this By-law that relates to a solid waste disposal site,

from entering a solid waste disposal site.

DRAFT

Refusal to provide service

15(1) Notwithstanding subsection 3(1) and in addition to any other powers of enforcement they may exercise, a designated employee may refuse to provide solid waste collection services:

(a) to a property whose owner or occupant fails to pay the applicable fees respecting solid waste within 90 days of being billed for those fees; or

(b) to any property that is not in compliance with this By-law, a provision of another City by-law that relates to solid waste, or with a rule, designation, determination, or other exercise of authority issued by the Director under section 11.

15(2) Where a property owner or occupant repeatedly fails to comply with this or another by-law of the City respecting solid waste, or with a rule, designation, or requirement issued by the Director in accordance with this By-law, the designated employee may suspend the provision of solid waste collection services to any property owned or occupied by that individual for a period of time set out by the designated employee in imposing the suspension, which may not exceed one year.

15(3) Before suspending the provision of solid waste collection services under subsection 15(2), the designated employee must

(a) notify the property owner or occupant in writing that suspending or terminating the provision of solid waste collection services is being considered;

(b) provide in writing the reasons why suspending or terminating the provision of solid waste collection services is being considered; and

(c) give the property owner or occupant 30 days to contact the designated employee to request a reconsideration of the proposed suspension.

15(4) Where the property owner or occupant requests that the designated employee reconsider the proposed suspension in accordance with clause 15(3)(c), the designated employee must decide whether to overturn, reduce, or uphold the proposed suspension. The property owner or occupant must provide any information that may be requested by the designated employee to assist with their reconsideration.

15(5) Where solid waste collection services have been refused or suspended under this section, the property owner is nonetheless liable for the payment of all applicable fees that were owing when the refusal or suspension began, including fees imposed under section 7.

Appeal

16(1) Where an appeal from an order or decision under this By-law is authorized by the Charter, the appeal may be made to the Standing Policy Committee on Water, Waste and Environment.

16(2) An appeal under subsection (1) must not be accepted by the City Clerk until an administrative fee in an amount set by Council has been paid to the City Clerk. The appeal body hearing the appeal may order the administrative fee to be refunded to the appellant if the

DRAFT

appeal has been made in good faith and has some merit.

Penalties

17(1) A monetary penalty pursuant to sub-clause 175(d)(i) of the Charter is hereby imposed for a contravention of this By-law. The monetary penalty is in the amount of the costs of any collection, clean-up and disposal of solid waste that is associated with the conduct that is in contravention of this By-law.

17(2) Subject to the Municipal By-law Enforcement Act (MBEA) Enabling By-law, a person who contravenes a provision of this By-law that is referred to in Schedule A of the Municipal By-law Enforcement Act (MBEA) Enabling By-law must pay the administrative penalty for that contravention set out in that Schedule. If an Early Payment Discount amount is set out for a provision in that schedule, a person who is issued a penalty notice for a contravention of that provision may, within 14 days after the penalty notice has been issued, voluntarily pay to the City the applicable Early Payment Discount amount and will thereafter not be prosecuted for the contravention.

Related amendments to other by-laws

18(1) The Execution of Documents By-law No. 78/2015 is amended by adding the following after section 20:

Execution of agreements to provide solid waste collection for commercial properties

20.1(1) The Director of Water and Waste is hereby authorized to execute on behalf of the City of Winnipeg contracts and agreements for the provision of solid waste collection services to commercial properties consistent with the Solid Waste By-law.

20.1(2) Notwithstanding clause 5(1)(b), the authorization in subsection (1) is not subject to the requirement for written certification as to legal form by the City Solicitor or delegate.

20.1(3) The authorization in subsection (1) may be sub-delegated to another City employee.

18(2) The MBEA Enabling By-law No. 59/2016 is amended by deleting the table relating to the Solid Waste By-law No. 110/2012 and replacing it with the table attached as Schedule “A” to this By-law.

DRAFT

Solid Waste By-law No. 110/2012 repealed.

19 The Solid Waste By-law No. 110/2012 is repealed effective April 1, 2025.

Coming into force

20(1) This By-law comes into force on April 1, 2025.
