I support the City expropriation of the Lemay Forest lands to create a new Regional Park for the City of Winnipeg. This action is critical to protect the remaining natural forest environment, consistent with the direction to preserve, protect and enhance the tree canopy in the city, and to protect the wildlife therein. It is critical to acknowledge and preserve the historical and cultural nature of the land - a burial ground for many unknown children and women who died at the Asile-Richot institution, and an area that continues to hold sacred significance to Indigenous communities.

Public engagement (optional)

I consent to being contacted to participate in potential public engagement related to this matter.
