That this application be considered by Community Committee.

REPORT

RECOMMENDATION(S):

That this application be considered by Community Committee.

HISTORY:

The application for private approaches to Lots 1 - 8, Plan 42851 (George Lawrence Bay) by Global Homes Ltd. (Bernhard Goertzen) was denied on September 2, 2004.

REASON FOR THE REPORT:

This application is non-conforming under By-Law No. 6546/95, Section 7, Subsection 10, which reads as follows:

> "Where there is any alley 4.5 metres or more in width to serve a property, no approach shall be constructed, erected or installed to serve such property except where the property is zoned commercial or industrial or put to such use."

DISCUSSION:

There is an existing 6.25 metre lane right-of-way to serve the above mentioned properties. Access from the lane to any portion of the rear of these lots is unrestricted.

The lane was constructed to serve lots fronting on Rougeau Avenue. The applicant has provided a letter explaining the need for the non-conforming approaches. There are no major obstructions fronting the lots. There will be an increased cost for snow clearing operations and a decrease in area for snow storage on the boulevard during winter months.

This application is for front access only, and if approved the approaches must conform to all other Sections of the Private Approaches By-law. The driveways must lead to a garage or a parking area in the rear or side yard (as per zoning regulations).
