To Whom It May Concern:

Re: Non Conforming Approach Permit

Global Homes Ltd. was forced to build a back line behind George Laurence Bay Lot 1 to 8. I told the community meeting that it was not allowed to have 2 approaches without a non-conforming permit. The city told me I did not know what I was talking about. I am delayed now for construction permits because of the summer recess.

Since all other homes don't have the back approach option or need to have a front approach we ask council to approve front approach for Lot 1-8 and pass a non conforming permit. We also ask to waive the $133.75 for each non-conforming approach.

Sincerely,

Bernhard Goertzen
