I believe we need to protect the Lemay Forest to help keep our City greener to help offset the pollution created daily by the use of car, industries etc. Forests take a long time to grow and we need to protect all green space as we as Manitobans have already clear cut too many trees. We know better now so that does not make sense to allow this to happen again and again moving forward. There are also many species who call this forest home and they need us to protect them from clear cutting this forest. There is also some land that was used as a cemetery. We need to respect those who have pass on and who's remains are in that Forest. Please vote to expropriation and rezone of Lemay Forest.
