Communities of people depend on Lemay forest for their mental, physical, and social health. It would not be much of a stretch to say they live and die with the forest. Countless more people receive great benefit from visiting and even more from green spaces' human health benefits. To take that away is unacceptable and unnecessary. We can house everyone properly without developing one square meter of Lemay Forest.

Do not undo all the work you've done for Indigenous Reconciliation or what you've done to enrich our tree canopy.

Please listen to the people who truly value Lemay Forest and vote to expropriate it so that it's tremendous benefits may be enjoyed forever.

Submission for a committee of council
