RECOMMENDATION

The Public Service requests that an extension of up to 90 days be granted to report back on the following:

1. Scope of work and budget to assess the condition of the below-grade concourse to determine the steps, costs, and traffic impacts required to decommission and close the concourse to public access.

2. Consultation with the tenants of the concourse, the property owners on the four (4) corners and other downtown stakeholders, consistent with the previous rounds of consultation in reference to the intersection, on the process and timing of that at-grade opening and the decommissioning of the concourse.

3. Consultation with the Winnipeg Arts Council in an effort to address concerns related to the public art that is located in the concourse.

REASON FOR THE EXTENSION

The Public Service has secured engineering services for the Portage and Main Underground Concourse Decommissioning Study and has developed initial conceptual plans for the decommissioning process. More time is requested to prepare a comprehensive decommissioning report, which will outline the impacts of decommissioning, the implementation strategy, and a Class 4 cost estimate. Once the engineering study is finalized in the second quarter of 2025, the findings will be contained in an Administrative Report and presented to Council for review/consideration.
