City of Winnipeg

Subject: Immediate Opposition from Norwood Grove BIZ – Moving on Marion Project

Dear Council Member/City Officials,

We are writing on behalf of the **Norwood Grove Business Improvement Zone Community** to express our **strong and united opposition** to the *Moving on Marion* Project, which, as it stands, threatens the livelihood of our local business community.

The proposed plan to **remove 30% of the existing parking** on Marion Street is not just a minor inconvenience—it is a **devastating blow** to businesses that depend on this access for customer traffic, deliveries, and daily operations. Parking is not a luxury in our area; it is a **critical part of economic survival**.

In addition, the extended construction period will inevitably cause major disruptions, reduce foot traffic, and create barriers that **will hurt small businesses already facing economic challenges**. The potential for long-term loss of revenue and permanent closures must not be underestimated.

We urgently ask:

- Has Council fully considered **less disruptive alternatives**, such as Horace Avenue, that may meet project objectives without putting a thriving business community at risk?
- Has there been a **comprehensive impact study** assessing the consequences this will have on the hundreds of workers, business owners, and families who rely on the Norwood Grove commercial strip?

The Norwood Grove BIZ and its members feel **excluded from a process** that directly affects their future. We strongly urge the City to pause this project, consult directly with our stakeholders, and **re-evaluate both the necessity and scope of these changes.**

We stand firm in our position: **this project, in its current form, must not proceed.**

We welcome the opportunity to speak further and urge you to take immediate action before irreversible damage is done to a vibrant, contributing community.

Sincerely,

Joe Loshiavo- Chairman of the Board
Norwood Grove Business Improvement Zone

Sheila Tan-Executive Director
Norwood Grove Business Improvement Zone
