Dear Mr. Pittet:

SUBDIVISION AND REZONING
Land located: 321 & 345 Avenue De La Cathédrale
Riel Community
File No. DASZ 16/04

An application has been received from Jean Paul Gobeil for approval of a plan of subdivision and related zoning change to Zoning By-Law No. 6400/94 by rezoning the subject lands from an “R2-T” Transitional Residential District to an “RM-4” Multiple Family Residential District including a subdivision to relocate the interior lot line between the said lots.

RELATED FILES:

SITE DESCRIPTION:

Site Area:

The subject parcels have a combined ±466 feet of frontage along Avenue De La Cathédrale and ± 144 feet of frontage along Rue Des Meurons. The total overall area of the two parcels is ± 2.36 acres.

Existing Land Use and Zoning:

The subject parcels are currently zoned R2-T. There is a ± 57,000 square foot residential facility housing the Sisters of the Holy Names of Jesus and Mary on the westernmost parcel (321 De La Cathédrale) and a landscaped open space on the easternmost parcel (345 De La Cathédrale).

Surrounding Land Use and Zoning:

North: To the north is a school and adjacent ball field zoned "R2-T".
South: To the south, along De La Cathédrale, is a school zoned "R2-T", single-family residences zoned "R2-T", and offices, zoned "C1".
East: To the immediate east is a commercial building zoned "C2". East across Rue Des Meurons is a commercial building zoned "M1".
West: To the immediate west are single and multiple family residences zoned "R2-T". To the west, across St. Jean Baptiste Street is a school, zoned "R2-T", and a community center, zoned "PR1".

DEVELOPMENT DESCRIPTION:

Rezoning

The building at 321 De La Cathédrale has served as the primary residence for the Sisters of the Holy Names of Jesus and Mary since its construction in 1911. With the passage of time, the building has become too large and too costly to maintain. The sisters are planning to relocate and it is their desire to dispose of both properties in the foreseeable future. They have indicated that it is their preference to sell the properties to non-for-profit groups or organizations that would want to use the building substantially in its current form. Possible uses they have identified include a shelter, a hostel, temporary housing for immigrant families, or student housing. Demolition, they strongly stress, is not a desirable option.

Prior to 1994, the subject properties were zoned R4, Multiple-Family District. Under City of Winnipeg By-Law 6525/94, the subject properties were rezoned from R4 to R2-T, Transitional Residential District. With that said, many of the uses the Sisters are now proposing for the facility would not be permitted within the R2-T District. Therefore, a rezoning to RM-4, Multiple Family District, is requested. In the RM-4 District, a hostel, temporary housing, and/or student housing may be permitted as a conditional use. Similarly, a shelter is classified as a permitted use.

It should also be noted that while there is a request to rezone the undeveloped parcel at 345 De La Cathédrale as well, a development proposal for that parcel has not been submitted nor discussed with staff.

Subdivision

Prior to 1974, a 4-storey structure, which served initially as a girls school and later as a cultural centre, stood at 345 De La Cathédrale and was connected to the main residence by a multi-storey passageway. When the building at 345 was demolished, the passageway was retained as an extension of the building at 321. Recent studies of the properties have revealed that the eastern most portion of the passageway encroaches on the adjoining lot (345). There is also a private driveway that provides access to 321. As a result, an eventual sale of 345 could result in loss of access to 321.

To resolve the encroachment and access issues, it is proposed that the middle of the existing private driveway on 345 become the dividing line of the two lots. This would entail moving the west boundary of 345 eastward by approximately 45 feet. In the eventuality of two different owners in the future, the private driveway could be shared under an access easement agreement. This will eliminate the need for another driveway egressing onto Avenue De La Cathédrale, relatively close to the corner of Des Meurons.

PLAN WINNIPEG:

The subject land lies within the Neighbourhood Policy Area which allows for multiple-family zoning.

ADMINISTRATIVE COMMENTS:

Rezoning

Lot 1 (321 De La Cathédrale)
As previously mentioned, the subject parcels were originally zoned R4, Multiple-Family District under a previous zoning by-law. Since the time that they were rezoned to R2-T, the parcel at 321 Avenue De La Cathédrale has been classified as legal non-conforming. In the last decade or so, since the rezoning, this facility has continued to operate as a residence for the Sisters and the non-conforming status has had no impact on the operation of the facility.

Now, in light of the fact that the sisters are trying to dispose of the property, the existing zoning classification will heavily restrict what the building can be used for in the future.

With that said, a rezoning to RM-4 will allow several uses, such as a hostel, student housing, a nursing home, assisted living facility, and transitional housing as conditional uses. It would also allow a shelter as a permitted use. Allowing for more flexibility will encourage an adaptive

reuse of this beautiful, historic building and ensure its continued upkeep. Importantly, the Sisters have also indicated that whatever use they ultimately choose for the building, it will be consistent with their mission of serving the community.

It should be noted, as previously mentioned, that the majority of the uses being proposed will require a conditional use. Therefore, while a rezoning to "RM-4" will increase the range of options available to the Sisters in the marketing of their building, the conditional use process will allow the City and the public to evaluate the merits of each specific proposal. Thus, there are safeguards in place to ensure that the use(s) that will eventually occupy this facility are compatible with the surrounding neighbourhood and will not create a substantial adverse effect upon adjacent properties. Therefore, the Planning and Land Use Division recommends that the rezoning of 321 De La Cathédrale from "R2-T" to "RM-4" be approved.

Lot 2 (345 De La Cathédrale)

There are currently no specific plans to develop the parcel at 345. The petitioner has indicated that it may be sold in conjunction with the residence or it may be sold separately, depending on what offers are ultimately received. In any event, whether it is purchased in conjunction with the residence or developed separately, a rezoning to "RM-4" is not necessitated at this time. While a multi-family zoning classification may assist in the marketing of this parcel to potential developers, granting it without having a specific development proposal opens the door to a range of uses and a density that may not be appropriate at this location. Once a specific proposal for this parcel is on the table, it can be evaluated on its own merits and at that time, if a rezoning is necessitated, a decision about whether it is appropriate can be made. Therefore, the Planning and Land Use Division recommends that the rezoning of 345 De La Cathédrale from "R2-T" to "RM-4" not be approved at this time.

Subdivision

This subdivision will eliminate an existing encroachment on 321 and allow access to both parcels from the existing driveway. This will prevent the potential loss of access to 321 and will eliminate the need for another driveway egressing onto Avenue De La Cathédrale, relatively close to the corner of Des Meurons. With that said, the Planning and Land Use Division recommends approval of this subdivision as proposed.

RECOMMENDATION:

I. That the plan of subdivision proposed under File No. DASZ 16/04 be approved for preparation as a plan of subdivision by a Manitoba Land Surveyor in accordance with Schedule "A" for File No. DASZ 16/04, attached hereto and dated September 13, 2004 for registration in the Winnipeg Land Titles Office.

IV. That a 10 percent dedication be made by a payment of a sum of money to the City in lieu of the requirement for land dedication based on the increase in market value of the land and the creation of additional sites, (if applicable).

V. That, in the event this application is not proceeded with expeditiously and the by-law is not enacted within twenty-four (24) months after adoption of this report by Council, the matter shall be deemed to be concluded and shall not be proceeded with unless an extension of time is applied for prior to the expiry of this twenty-four (24) month period and the extension is subsequently approved by Council.

VI. That the City Solicitor be requested to prepare the necessary by-law in accordance with the above.

VII. That the subdivision section of the by-law shall come into force and effect upon execution by the City of Winnipeg of the Development Agreement.
