REPORT

RE: The City of Winnipeg Public Art Policy

FOR SUBMISSION TO: Executive Policy Committee

ORIGINAL REPORT SIGNED BY: Annitta Stenning
Chief Administrative Officer

REPORT DATE: October 18, 2004

RECOMMENDATIONS:

1. that Council adopt the attached Public Art Policy and direct the administration to release Public Art funding from the approved 2003 capital budget
2. that Council approve an annual grant for Public Art starting in 2005 and subject to the annual budget approval process
3. that Council delegate authority to the Chief Administrative Officer to finalize all agreements and documentation necessary to implement the foregoing

REPORT SUMMARY:

The City of Winnipeg acknowledges the value of Public Art that integrates our urban environment and enhances quality of life for citizens and visitors in our city. Plan Winnipeg – 2020 Vision states the following:

The City shall implement a public art strategy to promote and facilitate the incorporation of art into existing public spaces and within appropriate new developments by:
i) establishing requirements for public art, drawing on artistic expertise and community involvement, and introducing a funding mechanism to meet these requirements;
ii) committing to the incorporation of public art in major public work initiatives; and
iii) developing programs to exhibit temporary art in existing public spaces

A strong Public Art Policy designed specifically for Winnipeg will ensure a well-administered and appropriately funded Public Art Program for the benefit of the entire community.

Key Issues:

- The intent of the Draft Policy that was approved in principle by Council in September, 2003 was to have the Winnipeg Arts Council Inc. act as an independent, arms-length organization, to provide Public Art project expertise and draw capable candidates from the local and national arts community for public art projects. The policy however, was approved in principle with the conditions that:

    - The City Administration and the Winnipeg Arts Council Inc. collaborate to produce an implementation plan for the Public Art Program, and
    - The City Administration provide a long-term funding recommendation based on the options put forward in the Draft Policy
- It was agreed between the City Administration and the Winnipeg Arts Council Inc. that in addition to the conditions above, the Draft Policy in its existing form required other clarifications and revisions in order to be adopted by Council. The City Administration further reasoned that a policy containing clear roles and responsibilities and proper accounting controls was necessary to ensure formal adoption by Council. Ultimately, The City of Winnipeg desires a Public Art Program that:
    - optimizes the quality, visibility and economy of public art projects, and
    - utilizes funding that is easy to administer, predictable in amount and justifiable to the public

Implications of the Recommendation(s):

General Implications

☐	None
☒	For the organization overall and/or for other departments
☒	For the community and/or organizations external to the City of Winnipeg
☐	Involves a multi-year contract

Comment(s): Administering the Public Art Program may require participation and cooperation among several City of Winnipeg departments, as well as collaboration with members of the Winnipeg Arts Council, an independent community organization. Therefore, an Administrative Directive on Public Art will be created to ensure the effective coordination of all City activities necessary to implement a successful Public Art Program. In addition, the Winnipeg Arts Council will be responsible for composing and administering a set of Policy Implementation Guidelines that work in conjunction with the Administrative Directive to ensure a successfully administered program in every sense.

Policy Implications

☐	No
☒	Yes Comment(s): An adopted City of Winnipeg Public Art Policy will be the first of its kind, and therefore, precedent-setting for the City. It is critically important that a formally adopted policy be clear, concise and reflective of the public interest.

Environmental Implications

[X] No

[ ] Yes Comment(s):

Human Resource Implications

[ ] No

[X] Yes Comment(s): The Chief Administrative Officer will appoint a City staff member to serve on the Public Art Committee on a part-time basis. In addition, some City staff will be required on a periodic basis, to discuss the various implications of proposed public art projects. However, this will not require any staff additions in either case.

Financial Implications

[X] Within approved current and/or capital budget

[ ] Current and/or capital budget adjustment required

Comment(s): The Public Art funding mechanism prescribed in the Public Art Policy attached requires Council to approve an annual grant amount for public art, subject to budget approval. At Council's discretion, this amount may be approved on an annual, or multi-year basis. At present, $500,000 has been approved for Public Art from the 2003 Capital Budget. The 2004 Capital Budget did not provide funding for Public Art. The Capital Budget for 2005 to 2009, which has been approved in principle, but not yet adopted, identifies $500,000 for Public Art funding in each year from 2005 to 2009 inclusive.

REASON:

A draft Public Art Policy had been 'adopted in principle' by Council in September of 2003. As a condition of its adoption in principle, Council directed the administration to review and finalize details of the draft Public Art Policy. This review was to include a recommendation as to a long-term program funding mechanism as well as provide additional clarity as to the roles and responsibilities of the City of Winnipeg and the Winnipeg Arts Council.

HISTORY:

Since adoption in principle of the draft Public Art Policy in September 2003, the City's administration has been working in collaboration with the Winnipeg Arts Council to refine various policy implementation details. These discussions identified specific instances where clarification of roles and working relationships between the Winnipeg Arts Council and the City was required as a matter of policy. In addition, the two parties reviewed research on best

practices and program funding options in other jurisdictions. It was mutually decided that the best course of action was to bring a revised Public Art Policy forward for formal adoption by Council. The goal of these revisions is to ensure a policy that is clear and concise and reflects the long-term intent and objectives of the Public Art Program originally envisioned for Winnipeg.

DISCUSSION:

The draft policy document referenced above was 'adopted in principle' by City Council on September 24, 2003 along with the following recommendations:

1. That the Public Art Policy be forwarded to the Chief Administrative Officer to work in conjunction with the Winnipeg Arts Council to develop the necessary procedures for implementing the direction of the policy, including, but not limited to, those areas relating to governance and funding.
2. That the Administration be requested to report back to Executive Policy Committee on the immediate steps for implementing the Public Art Policy, outlining plans for both the short and long term, including but not limited to regulations and budgetary implications

This report and the accompanying policy document represent the fulfillment of the above recommendations. A summary of the rationale for key components of the revised policy is provided below.

Site Selection
The original draft policy was unclear as to who had final authority for the approval of appropriate sites for public art projects. The revised policy gives the City final authority for site approval and identifies that ownership, liability and ongoing maintenance of public art pieces transfers to the City upon installation of the public art projects. Collaboration between the Winnipeg Arts Council and the City regarding potential public art sites has been preserved in the revised policy.

Artwork Selection
The Winnipeg Arts Council Inc. retains final authority for artist and artwork selection. The intent of the original draft policy was to place public art project adjudication in the hands of an independent body of individuals with the necessary level of public art expertise. That intent has been preserved in the revised policy document.

Program Funding
Many jurisdictions in North America have successful, publicly funded public art programs. There are a number of different funding mechanisms used in these jurisdictions. Two of the most typical mechanisms are:

- A One-time or Annual Grant – the City simply provides a specified amount of cash in support of the public art program. Vancouver and St. John's, Newfoundland are two cities that provide this form of funding. The City of Winnipeg also approved a grant in the amount of $500,000 for public art in 2003. The advantages of this mechanism are its simplicity, predictability, and ease of administration by the City..

- A '% for Art' Allocation – Cities pre-determine a specified percentage of their approved capital budget (or eligible capital budget) to be applied to public art projects. Cities that provide this form of funding include Chicago (1.33%), Portland (1.33%), Seattle (1%), Ottawa (1%), Toronto (1%), Thunder Bay (1%), Regina (1%), and Edmonton (1%), as well as Victoria (1%), Surrey (1.25%), Saanich (1%), Kelowna (1%), New Westminster (1%) and Esquimalt (1.5%) in British Columbia. It should be noted that many of these jurisdictions apply parameters on the type of capital projects that are eligible for public art funding. The primary advantage of this funding alternative is its direct linkage to approved development (via the capital budget). However, this method provides a significantly less predictable form of funding. In Winnipeg's case, this method would also necessitate additional capital accounting and project tracking procedures that would be burdensome and costly to administer.

  Many of the jurisdictions above also encourage the private sector to participate in or abide by the '% for art allocation' in the case of private development. However, incentives are provided to private developers only in isolated instances.

The revised Public Art Policy recommends that an annual grant amount for Public Art be approved by Council. The policy recommends further that the grant be advanced to and administered by the Winnipeg Arts Council Inc. as outlined in the policy and based on terms and conditions specified in a grant agreement.

Supplementary Documentation

In an effort to promote the brevity and long-term relevance of the attached Public Art Policy, the revised policy references two companion documents. These documents will provide the level of detail necessary to guide members of the Winnipeg Arts Council Inc. and the City Administration in the successful implementation of the Public Art Policy direction. The first of these documents, entitled 'Public Art Program – Policy Implementation Guidelines, will detail the implementation roles and responsibilities of the Winnipeg Arts Council. The Winnipeg Arts Council Inc. will be responsible for ensuring compliance with and currency of this companion document. The second of these documents, the City of Winnipeg 'Administrative Directive on Public Art' will detail the implementation roles and responsibilities of the City Administration. The Chief Administrative Officer will be responsible for ensuring compliance with and currency of this companion document. It is envisioned that details in these documents could be amended or updated as the program evolves over time, without the necessity for a revised and re-adopted policy.
