I am pleased that the Water and Waste Committee passed a recommendation for the possibility to “not have a transmitter installed on the property” - https://clkapps.winnipeg.ca/DMIS/ViewDoc.asp?DocId=26950&SectionId=&InitUrl=. A meter that does not give off any radio frequency (at any time) is the only safe option for people with medical conditions impacted by EMF. This option needs to be part of the Opt-out Program. It is good to have a medical letter to get this accommodation but please consider recommendations from physicians outside of Manitoba as well because specialized care is rarely found inside this province. Thanks.
