ANALYSIS AND ISSUES

COLLABORATIVE PLANNING AND CONSULTATION

With the Urban Planning and Design Division

The applicant worked with the Urban Planning Division on design adjustments through the planning process. The applicant agreed to:

- Provide compliant-width van accessible stalls
- Ensure all main floor windows and doors are glazed with transparent glass to provide interplay between interior and exterior of the building at the sidewalk.
- Provide indoor, secure bike parking.
- Extend the main floor wood siding back along the sides at least 20 ft. as these parts of the façade will be very visible from the sidewalk.
- Provide a walkway on the north side running back to front for pedestrian functionality.

COMPLETE COMMUNITIES DIRECTION STRATEGY 2.0

The Complete Communities Direction Strategy 2.0 **(CCDS 2.0)** is a citywide secondary plan that guides growth, development, and land use in the City of Winnipeg.

In CCDS 2.0, the City targets a minimum of 50% of all new dwelling units being accommodated in the residential intensification target area outlined in Section B1. General Growth Goal 2: 2.0, which includes Established Neighbourhoods.

The proposed development falls within the Established Neighbourhoods – Mature Communities policy area.

Policy 1.9 of this section states:

> *"1.7 Mid-rise residential uses will generally be accommodated on arterial streets where compatible with adjacent land uses, where they can be conveniently served by transit and local commercial amenities, and in consideration of the factors listed in Policy section 1.6."*

Mid-rise residential is defined on p. 96 as:

- *"The design of taller buildings up to 6 storeys on the edge of existing adjacent residential neighbourhoods that may be smaller in form and lower in density.*
- *Allows predominantly medium scale multi-residential buildings 4-6 storeys in height.*
- *Allows for some intensification in a form that respects the scale and character of the community while meeting the needs of a diverse population."*

At 6 storeys in height, the proposed development meets the above polices.

In addition to above, the proposal meets the CCDS 2.0 vision of Established Neighbourhoods to ***"****continue to evolve as complete communities to increase the diversity of housing choices, improve housing affordability, and more efficiently use land, infrastructure and services."*

Other relevant Established Neighbourhoods policies regarding the hotel portion include:

- *"4.0 Ensure neighbourhoods accommodate a range of commercial services and amenities within walking distance to meet daily needs.*
- *4.6 Vertical commercial/residential mixed-use development is generally supported where local commercial development currently exists, where there is the presence of a public lane."*

As a small scale (one level) hotel use in walking distance of many shops and services on Sherbrook Street, and being located on a large site with a rear lane, the proposal meets the above polices.

WINNIPEG ZONING BY-LAW 200/06

The Division believes "CMU" – Commercial Mixed Use is an appropriate zoning district because it supports development that aligns with the mid-rise residential, mixed-use vision established in CCDS 2.0 through the following Established Neighbourhood policies:

- *Mid-rise residential uses will generally be accommodated on arterial streets where compatible with adjacent land uses, where they can be conveniently served by transit and local commercial amenities.*

  At 6 storeys in height, the proposal is mid-rise and it is located on an arterial street served by transit and local commercial amenities.

- *Ensure neighbourhoods accommodate a range of commercial services and amenities within walking distance to meet daily needs.*

  The proposal's addition of hotel suites will add to the mix of options for the neighbourhood.

- *Vertical commercial/residential mixed-use development is generally supported where local commercial development currently exists, where there is the presence of a public lane.*

  Although most area commercial has been traditionally found along Sherbrook Street, commercial development has recently been established immediately north at the corner of Maryland and Westminster (offices), and exists at Maryland and Wolseley (Shorty's Pizza), at Maryland and Westminster (Food Fare) and Maryland and Sara (offices).

SERVICING / DEPARTMENTAL CONSIDERATIONS

Water and Waste

The Water and Waste Department advises there is adequate water servicing for the proposed development. Additional review will be required by the Department should the plans of development change during the design process.

The subject land is located in a combined sewer district; the sum of the wastewater and land drainage runoff peak discharge from the proposed future development cannot exceed the allowable discharge rate.

The Urban Planning & Design Branch, Planning, Property and Development Department advises that the Developer is required to preserve and protect City-owned trees, including those immediately adjacent to the subject site on Maryland.

Further details can be found in Schedule B.

SUMMARY

The Urban Planning Division supports the subdivision and rezoning, because**:**

- CCDS 2.0 supports mid-rise residential uses on arterial streets where compatible with adjacent land uses, where they can be conveniently served by transit and local commercial amenities.
- CCDS 2.0 supports a range of commercial services and amenities within walking distance to meet daily needs.
- CCDS 2.0 supports vertical commercial/residential mixed-use development where local commercial development currently exists, where there is the presence of a public lane.
- The proposal meets the CCDS 2.0 vision of Established Neighbourhoods to ***"****continue to evolve as complete communities to increase the diversity of housing choices, improve housing affordability, and more efficiently use land, infrastructure and services."*
- **The site contains adequate servicing to support the proposal.**

OURWINNIPEG POLICY ALIGNMENT

The proposal aligns with the Key Direction of *OurWinnipeg* that applies to the Mature Communities Policy Area, which states: "*Enhance the quality, diversity, completeness and sustainability of stable neighbourhoods and expand housing options for Winnipeg's changing population."*

WINNIPEG CLIMATE ACTION PLAN ALIGNMENT

The proposal complies with the *Winnipeg Climate Action Plan* because the proposed development would increase the residential intensification of an established neighbourhood.

WINNIPEG POVERTY REDUCTION STRATEGY ALIGNMENT

Consideration was given to whether this report connects to any of the specific Goals and Objectives in the *PRS* and it was determined the *PRS* is not applicable to this specific report.
