EPC has failed to recognize that there are 2 primary dangers with the new meters. Radio-wave transmissions and the unavoidable use of empty home data by criminals. EPC has been silent on mitigating both. They pretend that propaganda will solve the radio wave problems. Can the radio transmissions be shielded from the residents? Can the data packets be very infrequent and short? These were all laid out in detail, but city hall's spin docs believe that stronger propaganda will suffice, instead.

Public engagement (optional)

I consent to being contacted to participate in potential public engagement related to this matter.
Yes
