RE: AUGUSTINE CENTRE PROPOSED REHABILITATION PLANS

Dear Tim,

I am writing to offer my full support for the proposed rehabilitation plans for Augustine Centre and commend your efforts to transform the sanctuary into a welcoming and versatile performance space for our community.

Built in the early 20th century Augustine Centre is a prominent historic landmark in Osborne Village and given its role in the community and the challenges inherent in preserving such a significant building, I fully recognize the importance of these restoration efforts to extend the life of this structure.

The planned renovations to both repair and repurpose the church will ensure that this valuable piece of our city's heritage remains a vibrant and functional resource for the community for generations to come. I greatly appreciate your commitment to preserving this historical building and am confident that a Canada Heritage Legacy Fund Grant will ensure the success of this project and the continued impact of Augustine Centre in our community.

Kind regards,

Sherri Rollins
