2. This is going to conclude it and they're going to be following all the recommendations and considerations that we've talked about over the years. So, I've been very impressed and thank them for helping Winnipeg grow.

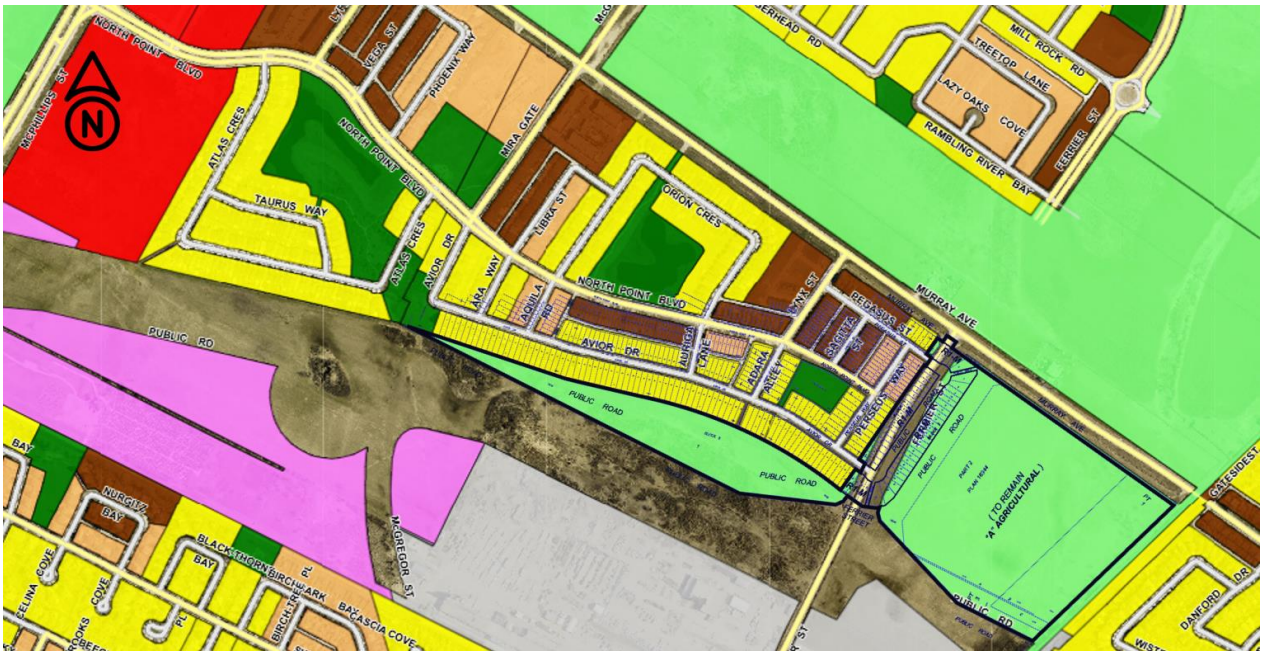

Figure 2: Zoning of the Site and Surrounding Area

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant is proposing to subdivide and rezone +/- 19.45 acres of land shown outlined on Map 1 attached that is presently zoned "A" Agricultural District to an "R1-M" Residential Single-Family (Medium) District to develop Phase 11B of the Aurora at North Point Neighbourhood lands by the creation of fifty-five (55) residential zoning lots and public rights-of-way for future residential development.
- Under the subject application, Ferrier Street will be realigned and moved to the east onto lands owned by the City of Winnipeg to meet proper intersection safety standards for the alignment of the Chief Peguis Trail extension. The existing right of way will be closed under road closing application, DAC 3/2025, which is running concurrently with this application.
- The owner's current developable land is roughly 12.49-acres in area, comprised of residual lands created during DASZ 61/2022 (Phase 11A). Approximately 12 acres of this land will be allocated for the future Chief Peguis Trail right-of-way, with three blocks of residual land from DASZ 61/2022 (0.48 acres) to be included in the proposed residential development.
- The existing Ferrier right-of-way to be closed is 3.93 acres in area. The surplus City of Winnipeg lands west of the new Ferrier Street right-of-way comprise 2.55 acres. Together, these 6.48 acres will be rezoned to "R1-M" Residential Single-family Medium and included in the Phase 11B subdivision. The new Ferrier Street right-of-way will be opened on City owned lands to the east of Phase 11B.
- The City of Winnipeg would acquire the remaining 5.52 acres of the ROW as per the Development Agreement Parameter acquisition rate.
- Plans of development have not been submitted at this time.
- In addition to the proposed subdivision and rezoning, a Variance application has been submitted to accommodate one lot with substandard lot area within the proposed development (DAV 25-141574\D). Please refer to the Planner's report for details.

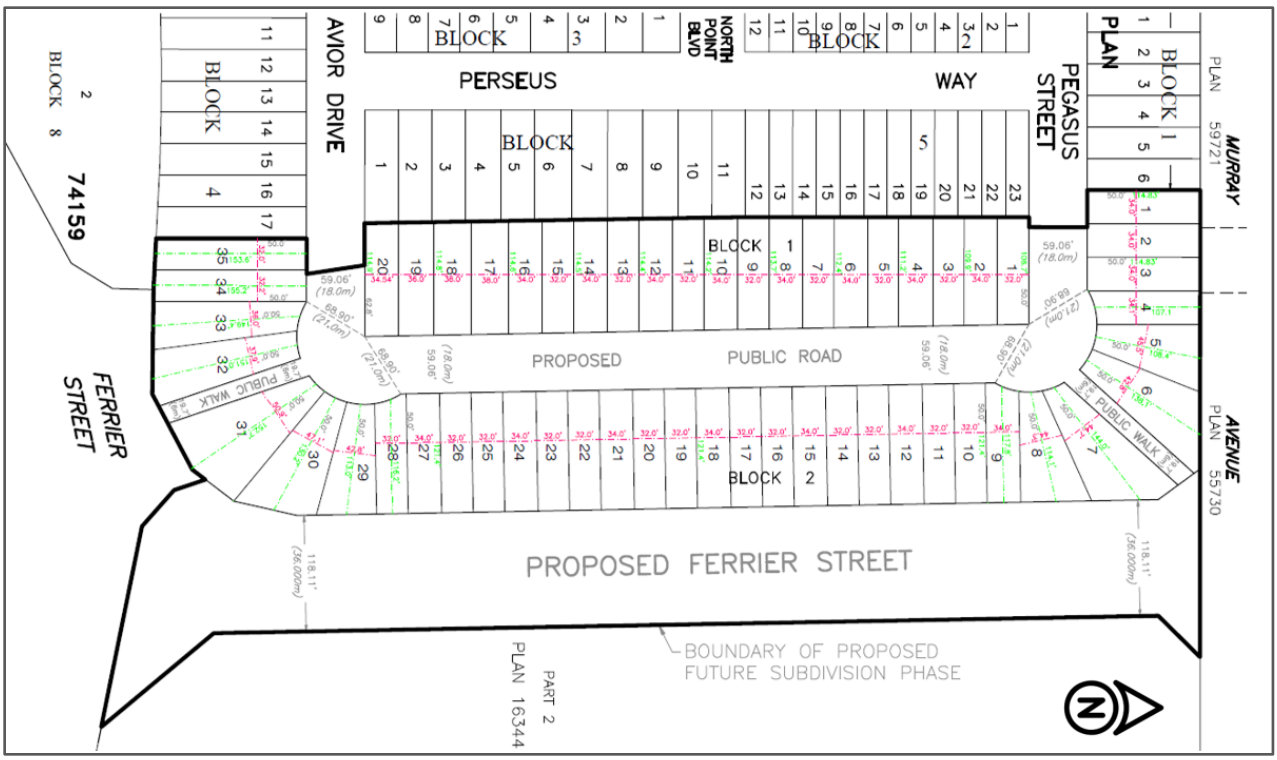

Figure 3: Proposed R1-M Subdivision and Rezoning

Proposed Subdivision and Rezoning (Figures 3 & 4):

As noted, a total of fifty-five (55) lots zoned "R1-M" Residential Single-Family (Medium) are proposed under the subject application. The proposed plan of subdivision and rezoning is described in more detail as follows:

- Block 1 would be subdivided into 20 lots with future development to include front access driveways.
- Block 2 would be subdivided into 35 lots with future development to include front access driveways.
    - Lots 1-6 would back onto Murray Avenue.
    - Lots 7-31 would back onto the realigned Ferrier right-of-way.
    - Lots 32-35 would back onto the future Chief Peguis right-of-way.
    - Block 2 includes two (2) public walks, one between lots 6 and 7 and one between lots 31 and 32 to provide access from within the neighbourhood to key intersections at the edge of the Aurora development.
- Block 8 (12.16 acres) would remain zoned "A" Agricultural District and will be required to accommodate the future widening of Chief Peguis Trail per the Chief Peguis Trail Functional Design Study.
- The City-owned land south of the proposed Ferrier Street realignment will retain the current "A" Agricultural zoning.

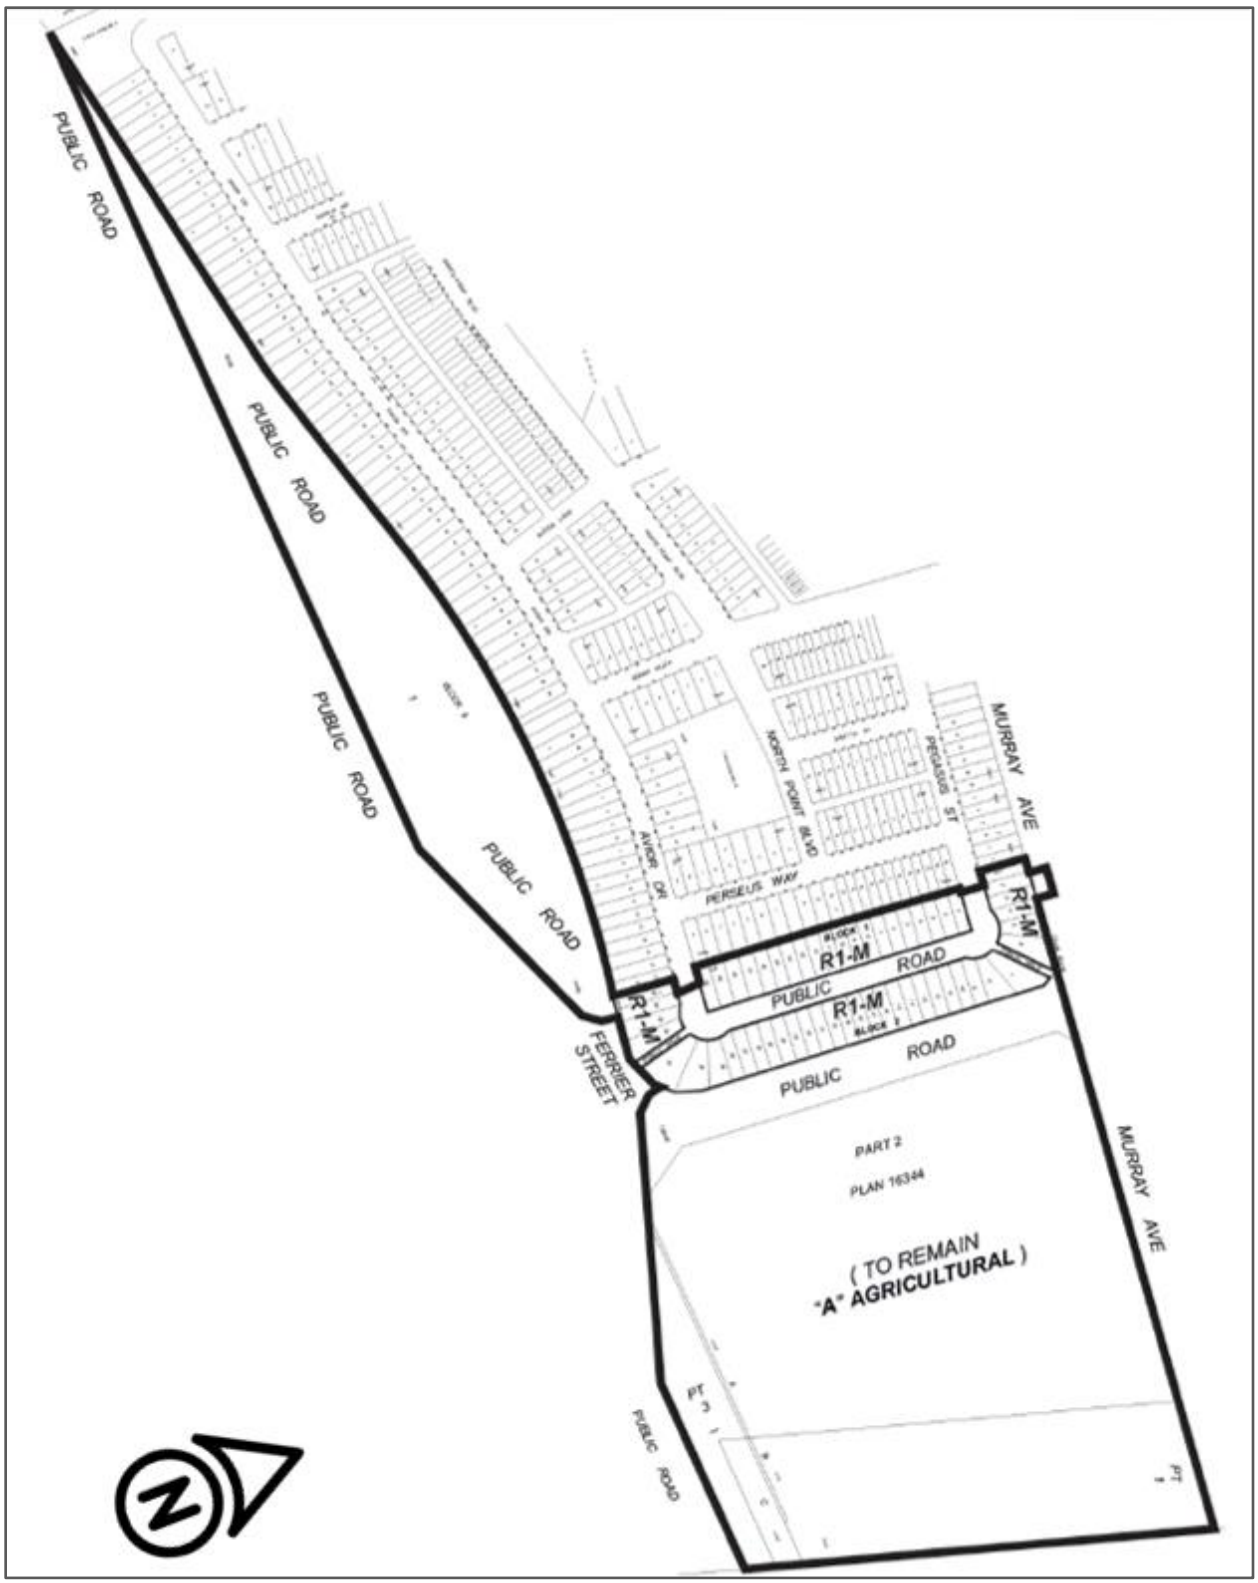

Figure 4: Proposed Plan of Subdivision and Rezoning

COLLABORATIVE PLANNING

- In 2020, the applicant submitted a Pre-Application including two (2) different options for development of the subject lands. Following the pre-application process, the applicant engaged in a number of discussions with the Winnipeg Public Service, engaging the Public Service prior to submitting the subject application, and revising their proposal based on feedback to provide a mutually agreeable proposal.
- The proposed plans of subdivision for Phases 11A and 11B were revised to consider land requirements for the Chief Peguis Trail extension and the proposed Ferrier Street alignment.

ANALYSIS AND ISSUES

OURWINNIPEG AND THE COMPLETE COMMUNITIES DIRECTION STRATEGY 2.0

- Under *OurWinnipeg* and *Complete Communities 2.0,* the proposed development is within the "New Communities" Policy Area (Precinct 'G') where the following policy applies:
    - *The development of New Communities will be supported by a planning process and organized within planning precincts.*
- A Planning Process has occurred and the *Precinct 'G' Secondary Plan By-law* has been adopted by Council as By-law 5/2018.

PRECINCT 'G' SECONDARY PLAN BY-LAW

- The land use concept under the Precinct Plan consists of a series of policy areas that define the future land use pattern of Precinct 'G'.
- Key policies that are relevant to the subject application include the following:
    - *3.1 Low Density Residential Policy Areas:*
        - *Single-family dwellings, two-family dwellings, and ground-oriented townhouses shall be the predominant use of land.*
        - *The minimum net density should be 7 units per acre over the entirety of the Low-Density Residential Policy Areas.*
        - *Parks and open spaces may be provided in Low Density Residential Policy Areas and sized to meet active and passive recreational needs of residents and visitors.*
    - *3.4 Limited Development policy Area:*
        - *No neighbourhood development shall be permitted in the Limited Development Policy Area portion of sub-area 4a until the alignment of the future Chief Peguis Trail extension has been determined and approved by Council.*
        - *The boundary of the Limited Development Policy Area in sub-area 4a will be consistent with that of the future Chief Peguis Trail right-of-way once the alignment of Chief Peguis Trail has been approved by Council. Once the Chief Peguis Trail right-of-way alignment has been approved by Council, lands previously designated as Limited Development shall be designated as Low Density Residential.*
- The proposed subdivision and rezoning would achieve the Precinct Plan policy requirements for net density targets.

- Although a portion of the planned area is within the Limited Development Policy Area, the Chief Peguis Trail extension alignment was approved in a Council endorsed report on June 20, 2019; therefore, the "Low Density Residential" policies apply, which allow for single-family, two-family dwellings, and ground-oriented dwellings as the predominant use of land.

CITY OF WINNIPEG ZONING BY-LAW 200/2006

The applicant is proposing to subdivide the subject site to accommodate right-of-way requirements, and to rezone lands to an "R1-M" Residential Single-Family District.

The "R1-M" is intended to accommodate primarily single-family residential development in lower-density neighbourhoods.

The proposed zoning district enables the development within the precinct to meet the residential density targets identified in the Precinct Plan.

COMPATIBILITY WITH THE SURROUNDING AREA

The proposed subdivision and rezoning would represent the final phase of the "Aurora at North Point" community, which is generally bound by Ferrier Street (east); McPhillips Street (west); Murray Avenue (north); and the future Chief Peguis Trail extension (south).

In terms of compatibility with the area surrounding the proposed development area:

- Lands west of the subject planned area are within the Precinct 'G' Plan and have been approved for development of residential uses in accordance with the Precinct G Plan (DASZ 32/2021).
- Lands to the south of the subject planned area are also within Precinct 'G' and future development (Phase 11B) will be evaluated under the relevant policies of the Precinct Plan, as well as land earmarked for the future Chief Peguis Trail extension and related works.

RECOMMENDATION

The Urban Planning Division recommends **approval with conditions** for the following reasons:

- The subdivision and rezoning application would generally comply with the *Complete Communities Direction Strategy 2.0,* and with the *Precinct 'G' Secondary Plan By-law,* subject to conditions of approval, and would be compatible with the surrounding area.
