ADMINISTRATIVE REPORT

Title: DASZ 9/2025 – 45 Daman Farm Road

Issue: An application for consideration at the public hearing to subdivide the land into 23 residential lots, rezone the lots to "RR2" Rural Residential 2 acres, and extend a road.

Critical Path: Riel Community Committee → Standing Policy Committee on Property and Development → Executive Policy Committee → Council

AUTHORIZATION

Author	Department Head	CFO	CAO
D. Clark RPP, MCIP	n/a	n/a	

RECOMMENDATIONS

1. That Development Application No. DASZ 9/2025 for the subdivision and rezoning of land located at 45 Daman Farm Road and 2974 St. Mary's Road be rejected.
2. That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

- The applicant is proposing to subdivide the property into 23 lots and rezone to the "RR2" Rural Residential 2 zoning district.
- Subdivision and Rezoning applications require a public hearing as per the *Development Procedures By-law* and *The City of Winnipeg Charter.*
- The Report is being submitted for the Committee's consideration of the development application at the Public Hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Public Service are concurred in, the subject lands will not be subdivided and rezoned, and a public right-of-way will not be opened as proposed.

HISTORY

- On April 21, 2021, the Riel Community Committee concurred in the recommendation of the Winnipeg Public Service and recommended rejection of the creation of 23 rural residential lots to be rezoned to the “RR2” zoning district, with lot sizes ranging from 1.9 acres to 3.3 acres.

- On June 22, 2022, the Riel Community Committee concurred in the recommendation of the Winnipeg Public Service and recommended support of the creation of 10, 5 acre lots, remaining zoned as “RR5” Rural Residential.

OURWINNIPEG 2045 POLICY ALIGNMENT

The proposed development does not align with OurWinnipeg2045 section 6.32 under the Growth Section, which states the following:

> *6.32 Rural and Agricultural Areas*
>
> *Designate Rural and Agricultural Areas within the Urban Structure, as non-urbanized lands suitable for agriculture, specialized agriculture, Indigenous land-based practices where possible, and supportive uses, as well as rural living that is permitted under existing, adopted secondary plans, and does not require a full range of municipal services*

WINNIPEG CLIMATE ACTION PLAN ALIGNMENT

The proposed development would not align with the following Key Direction in the Winnipeg Climate Action Plan: *“Ensure New Areas of Growth are Designed According to the Principles of Complete Communities.”*

WINNIPEG POVERTY REDUCTION STRATEGY ALIGNMENT

Consideration was given as to whether this report connects to any of the specific Goals and Objectives in the PRS and it was determined that the PRS is not applicable to this specific report.

ANALYSIS AND ISSUES

COMPLETE COMMUNITIES DIRECTION STRATEGY 2.0

- The *Complete Communities Direction Strategy 2.0* supports *OurWinnipeg 2045* and has statutory authority as a secondary plan. The strategy guides land use and development in Winnipeg.
- This site is located within the "Rural and Agricultural Lands" policy area. The Vision for this policy area is as follows:
    - *Rural and Agricultural lands will be managed in a manner that accommodates food production, rural living, and supportive uses that do not require a full range of municipal services. Land fragmentation should be minimized in preparation for long-term urban development, where applicable.*
    - Policies relevant to this proposal include:
    - Goal 2: Prevent the fragmentation of rural and agricultural land.
        - *2.1 Require a minimum site area of 16 hectares (40 acres) except where an applicable statutory plan allows a smaller site, or to facilitate the consolidation or reconfiguration of land into larger holdings.*
        - *2.3 Encourage consolidation of existing lots.*

- Under the Servicing Section of Complete Communities 2.0 the following goals and policies are relevant:
    - Goal 3.0*: Manage servicing in an efficient and sustainable manner that supports large lot and agricultural development in rural and agricultural areas.*
        - *3.1 Development in Rural and Agricultural Areas shall be predominantly serviced by private services and rural standard roadways all to the satisfaction of the Directors of Public Works, Water and Waste, and Planning, Property & Development.*
        - *3.2 Consider the possible subdivision or conversion of land in unserviced areas only where a statutory secondary plan establishes minimum parcel sizes, and appropriate servicing criteria.*

ST. VITAL PERIMETER SOUTH SECONDARY PLAN

- The subject site falls under the St. Vital Perimeter South Secondary Plan By-law No. 1735/77.
- The St Vital Perimeter South Secondary Plan allows for the subdivision of land in unserviced areas and establishes minimum parcel sizes, and appropriate servicing criteria, with the exception of lands located in "Hazard Areas." "Hazard Areas" include lands that are "subject to hazardous conditions like flooding or transitional areas between bodies of saline and potable water" (Section 3). Specifically, section 3.2 (a) states:

  15 3.2 Groundwater (a) To protect the potable groundwater resources in the Action Area by not approving development which may cause appreciable adverse effects upon the quality or quantity of potable groundwater and by limiting groundwater withdrawal through the arrangement and maintenance of appropriate development densities.

- The subject lands are located within the medium density rural residential policy area. This section of the secondary plan indicates the following direction on lot area and widths:

  1.1 (c) To establish a medium density rural residential area and to adopt a zoning by-law establishing a minimum site area of two acres and a minimum site width of 180 feet for a single-family dwelling site subject to approved variations.

CITY OF WINNIPEG ZONING BY-LAW 200/2006

Current Zoning

"RR5" Rural Residential 5

- Currently the lands are zoned Rural Residential 5 ('RR5'). The RR5 district is intended to provide areas for large-lot rural residential development, along with limited agricultural uses. The RR5 district requires: a minimum lot width of 300 feet, a minimum lot area of 5 acres, side yards of 25 feet, a front yard of 25 feet, and a rear yard of 25 feet. The maximum building height is 35 feet and the maximum lot coverage is 30%.

Proposed Zoning

"RR2" Rural Residential 2

- The applicant is proposing to rezone the subject site to Rural Residential 2 ('RR2'). The RR2 district is intended to provide areas for large-lot rural residential development. The RR2 district requires: a minimum lot width of 180 feet, a minimum lot area of 2 acres, side yards of 25 feet, a front yard of 50 feet, and a rear yard of 25 feet. The maximum building height is 35 feet and the maximum lot coverage is 30%.

Reason for the Subdivision and Rezoning

- The applicant is proposing to subdivide and rezone the land to Rural Residential 2 ('RR2') in order to create 23 rural residential lots ranging in size from 2 acres to 3 acres as well as extend the Jean Louis Road right-of-way into the new subdivision.

COMPATIBILITY WITH SECONDARY PLAN AND SURROUNDING NEIGHBOURHOOD

- Concerns regarding the groundwater in the area were originally addressed in the St. Vital – Perimeter South Hydrogeological Assessment Report from 2004 (the Report) which identified concerns about the sustainability of the aquifers in the area and the potential of saline contamination resulting from additional development. To prevent the risk of salt water infiltration in the aquifers, the Report recommended lot sizes be restricted to 5 acres or larger. The larger lot sizes are recommended to limit the number of private wells drawing water from the aquifer.
- When the St. Vital Perimeter South Secondary Plan was originally adopted the subject lands were identified as being located under the Medium Density Rural Residential Policy Area where minimum lot sizes of 2 acres and minimum lot widths of 180 feet are permitted. With the concerns identified in the Report and by the Water and Waste Department, the direction provided under the Hazard Areas Policy Area under the Secondary Plan applies which allows for the restriction of development in order to protect potable groundwater resources.

- The applicant suggests in the letter of intent that wells could be restricted on the land through either conditions on the variance, a condition on a Zoning or Servicing Agreement or through a registered development scheme caveat through the Real Property Act.
- Through discussions with the Administrative Coordinating Group, the Water and Waste Department has indicated it is not in a position to set up the various required regulatory mechanisms nor arrange sharing or transfer of jurisdiction of wells from the Province.
- Accordingly, the City's Water and Waste Department recommends that lot sizes be restricted to 5 acres or larger and used only for residential purposes. Water and Waste does not support 2-acre lot configurations. This is consistent with what was supported under the subdivision application in 2022 under file DAS 24/2022.

RECOMMENDED SERVICING AGREEMENT

Should a decision be made that supports the development application, a servicing agreement has been prepared and attached as Schedule B to this report.

RECOMMENDATION

The Public Service recommends rejection for the following reasons:

- The proposal is not consistent with the direction provided in the Hazard Areas Policy Area under the St. Vital Perimeter South Secondary Plan which allows for the restriction of development in order to protect potable groundwater resources.
- The Public Service is not in a position to set up the various required regulatory mechanisms nor arrange sharing or transfer of jurisdiction of wells from the Province.
- Due to the sensitive nature of the ground water aquifer in the area, the Public Service recommends that lot sizes be restricted to 5 acres or larger and used only for residential purposes.
