A. Organization Description:

Winnipeg Chinese Cultural and Community Centre Corporation (WCCCC) is a Charity, non-profit organization. The Cultural Centre has facilitated many events and program for the communities and also serve as a Centre in greeting many dignitaries to Manitoba. Being the centre and heart of Winnipeg Chinatown within the core of our City, WCCCC has been a strong proponent and participant for new development in Chinatown.

Objectives of WCCCC:

- To promote and advance the awareness, knowledge and to share the Chinese culture within our multi-cultural community of Winnipeg, Manitoba and Canada.
- To build community fabric between the various Chinese organizations and non-Chinese organizations in Manitoba.
- To welcome and assist newcomers, assisting new families and individuals that decide to build their new lives within our community.
- Provide programs for educational, cultural and recreational purposes.

B. Project description:

The building was originally built in the mid-80s and requires a much-needed renovation. The Winnipeg Chinese Cultural and Community Centre renovation project will include the planning, design and renovations of the main lobby, offices, public washroom, library/museum and security systems. Project original estimated starts and end dates are from Aug 18, 2020 to March 31, 2021, it was delayed due to pandemic, it finally got started in March 2023 and completed in March 2024.

Project Objectives:

a. Provide a welcoming environment for all end users within the community, staff and volunteers.
b. Create a destination for tourism, members within our community,
c. Provide a safe and secure environment for recreation and programs we provide and support.
d. Address Barrier – free issues, address sustainability where possible.

Results of the project objectives:

With the WCCCC renovation project, we will be able to address the above objectives. The anticipated outcome is to have WCCCC continue to serve as a focal point for the Chinatown, Chinese Community and our other communities. The renovations will enable WCCCC to serve as a catalyst for Chinatown renewal.

Project outcomes benefit communities:

The re-development strategy for the NW Exchange including Chinatown was announced in May 2019. WCCCC is an integral part of this development and is also a major anchor in Chinatown. The renovation of WCCCC will provide the positive space to provide additional programming and support those that wish to live, work and play in the area along with a positive brand to attract more visitors to Chinatown.

This renovation is a small piece of the larger re-development project. We see this project as serving a large group including

1. All age group, individuals, families, interest groups, and particularly our Senior's in the neighborhood

2. Students from RRC, U of W and U of M

3. Local Residences with current substantial investment in providing housing within the area.

4. Visitors (with increased tourism)

With the implementation of the strategies identified in the Chinatown plan, we will see the densification of the downtown, thus creating a robust Chinatown which will be safer and a future destination for all visitors local and from abroad.

We've met internally as a board and with residents in the community to identify the needs of the community. The students from south Winnipeg are reluctant to come to Chinatown because of the safety concerns. This renovation is one step in creating a safer environment for all those to come visit and use WCCCC. The re-planning of the office and library have allowed us to offer lectures, presentations and courses on topics such as culture awareness events, wellness programs, recreation, traditional arts class, language classes, finance / tax assistance services and employment.
