Winnipeg has long celebrated its tree canopy, from the early planting of thousands of elms over a century ago to more recent attention directed to the need for a more aggressive approach to tree maintenance and planting new replacement trees. Trees provide us so many important benefits, from the purely aesthetic to mitigation of urban air pollution. As our urban canopy disappears, extending our efforts to include the preservation and maintenance of trees on private property, where warranted, is crucial and I support this initiative.

Public engagement (optional)

I consent to being contacted to participate in potential public engagement related to this matter.
Yes
