My family wants me to ask you to protect trees instead of developers' profits. We already know that the Planning department waives many fees developers are supposed to pay. Lots of us see that developers control City Hall and play golf with Councillors to win favours. We don't think this helps you do your job to protect our tree assets. We feel Council should respect its role to represent all citizens, not just those in the construction industries. Therefore, show us all your commitment to our tree canopy by working immediately for a bylaw that preserves trees on private property now.
