ANALYSIS AND ISSUES

OurWinnipeg is the City of Winnipeg's long-range development plan. Applicable Policies for Mature Communities include the following:

6.16 Established Neighbourhoods

- *Designate Established Neighbourhoods within the Urban Structure, representing lands that will accommodate additional growth in a context-sensitive manner, while promoting the efficient use of land, cost-effective municipal servicing, enhanced housing choice and affordability, and conservation of green infrastructure and heritage resources and districts, as defined in Complete Communities.*

The proposed development application **aligns** with *OurWinnipeg* because the design of the proposed commercial building is similar or lower in intensity to the surrounding residential buildings.

COMPLETE COMMUNITIES DIRECTION STRATEGY 2.0

The *Complete Communities Direction Strategy 2.0* (*CCDS 2.0*) is one of four direction strategies supporting *OurWinnipeg 2045*, the city's long-range development plan, and has statutory authority as a secondary plan. The strategy guides land use and development in Winnipeg. *CCDS 2.0* provides policy guidance when assessing proposals that are seeking entitlements or changes to the *Winnipeg Zoning By-Law*.

The subject site is located in an "Established Neighbourhood – Mature Communities" policy area of *CCDS 2.0*. The following goals and policies of *CCDS 2.0* apply to the proposal:

- Goal 2 - *Design new development in Established Neighbourhoods to a high standard of urban design and construction to ensure new development adds value to public and private urban spaces to create a sense of place and civic pride.*

  Site design

  - *2.21 Site design should take cues from the character of the neighbourhood or street and should mitigate the potential for land use conflict with adjacent properties that have different scales, densities and uses. Parking location (motor vehicle and bicycle), vehicular access, servicing elements, building placement and landscaping treatment will be important design elements to ensure context-sensitive design.*
  - *2.22 Create or reinforce compact, pedestrian-oriented urban development patterns by ensuring the siting, form and scale of new development has a strong relationship to the street, public spaces and amenities in a way that is consistent with neighbourhood context.*

  The proposed expansion is similar in scale to surrounding properties, given that it maintains the existing structure and proposes a one-storey expansion at the rear of the existing house. Parking is maintained at the rear, and an additional pedestrian connection to Stafford Street will be added.

- Goal 4 - *Ensure neighbourhoods accommodate a range of commercial services and amenities within walking distance to meet daily needs.*

General Policies

- *4.1 Support commercial development where residential neighbourhoods are not well served by local and community commercial amenities.*
- *4.4 New commercial development should be complementary and context sensitive to nearby uses.*

The "C1" Commercial – Neighbourhood district is the lowest intensity commercial district, enabling a range of smaller-scale commercial uses. There is an existing "C1" site opposite the subject site on the other side of the rear lane. The proposed art gallery use, to be located in an existing one-storey building, is complimentary and context sensitive to the surrounding single-family dwellings.

Mature Communities Policies

- *4.10 Consider the establishment of new neighbourhood-focused, small scale commercial uses where at least one of the following criteria are met:*

  a. The property is a corner lot fronting a collector or arterial street;

  b. The property abuts an existing commercial use on a collector or arterial street;

  c. Immediately adjacent uses render the subject property unsuitable for residential development; or

  d. The property contains existing non-residential uses or buildings that were not designed to accommodate residential uses.

- The property is a corner lot fronting Stafford Street – an arterial street – with a "C1" zoned property adjacent to this property on the other side of the rear lane.

ZONING BY-LAW 200/2006

- The "C1" Commercial Neighbourhood District is intended to accommodate small, compact commercial uses within or surrounded by residential areas that are attractive and compatible in scale and character with surrounding residential uses.
- The proposed retail sales use – a boutique art gallery – can be accommodated in the "C1" district.

ADDITIONAL CONSIDERATIONS

Site Servicing

- The Administrative Coordinating Group (ACG) outlined in Appendix B of this report advises that there is adequate water servicing for the proposed development based on the provided development plans. In the event that the development plans change, WWD will need to review the revised proposal.

SUMMARY

The Urban Planning Division recommends **approval** for the following reasons:

- The Subdivision and rezoning will result in the establishment of a commercial development that is consistent with policies in *OurWinnipeg 2045* and *Complete Communities 2.0*.

RECOMMENDATION

The Urban Planning Division recommends this application be **approved** and the subject property be Subdivided and rezoned to the “C1 Mature Communities PDO-1” Commercial Neighbourhood District.
