I have been biking on this trail system for 40 years. Until parts of it fall into the river, it has not needed a lot of improvement.
I see that your staff consider CONSULTATION to mean nothing more than a visit to the lawyer's office. Before you spend so many tax dollars on this, I believe that you should have actually consulted with actual users. Why are there no images in this document? Where will the extension go? Will the new path be flooded every spring? Many of the benefits listed in this document have nothing to do with this trail. Has anyone here noticed that fact? Your staff certainly did not.
