EXECUTIVE SUMMARY

This is the yearly update on fire inspections at Converted Residential Dwellings (CRDs).

A Converted Residential Dwelling:

- Is a building containing a residential occupancy.
- Can not be higher than three stories.
- Was originally built for one or two families. It now provides more than two suites (or more than one suite and a commercial occupancy).

A Converted Residential Dwelling with Shared Facilities is:

- A home or building where three or more separate units share bathrooms or kitchens. It does not matter if the units are occupied or empty.
- A home where two or more people who are not on the same lease share a bathroom or a kitchen.

The Winnipeg Fire Paramedic Service inspected 536 CRDs. This included those with and without shared facilities. Most violations with shared facilities related to fire alarm systems and smoke alarms. Most Licensing and Bylaw Enforcement issues were about garbage piling up.

The Public Service will continue to report each year on CRDs with shared facilities. These reports will include:

- Winnipeg Regional Health Authority education effectiveness.
- Phone call complaints received by 311 from residents.
- Number of complaints received, inspections, and follow-ups.
- Any by-law safety issues and recommendations.

RECOMMENDATIONS

That this report be received as information.

REASON FOR THE REPORT

On November 16, 2016, Council concurred in the recommendation of the Standing Policy Committee on Protection, Community Services and Parks and adopted the following:

2. That the Winnipeg Public Service be requested to report back annually on Converted Residential Dwellings with Shared Facilities, including but not limited to the Winnipeg Regional Health Authority education effectiveness; 311 screening; number of complaints, inspections, compliances, and outstanding inspections; and anything regarding the by-law safety issues, and recommendations.

IMPLICATIONS OF THE RECOMMENDATIONS

There are no implications associated with receiving this report as information.

HISTORY/DISCUSSION

The City of Winnipeg licenses Converted Residential Dwellings ("CRDs") to help ensure that conversions of residential dwellings meet minimum occupancy, structural, and fire safety standards. A CRD must meet the following general criteria to be licensed / allowed to operate in the City of Winnipeg:

A Converted Residential Dwelling:

- Is a building that contains a residential occupancy.
- Has a maximum building height of three stories.
- Was originally designed for use by one or two families but has since been converted to provide more than two suites.
- Was originally designed for use by one or two families but has been converted to provide more than one suite with a commercial occupancy.

A Converted Residential Dwelling with Shared Facilities is:

- A dwelling that is designed for sanitary facilities or cooking facilities to be shared by occupants of three or more dwelling units, regardless of whether the dwelling units are occupied or not.
- A dwelling where sanitary facilities or cooking facilities are shared by two or more residents of a dwelling unit that is not operated under a single tenancy.

Winnipeg Regional Health Authority Education Effectiveness:
A proactive and joint effort with the Winnipeg Regional Health Authority to educate their frontline workers on navigating issues related to client interactions with the City of Winnipeg Licensing & By-law Enforcement (LBE) and related by-laws was concluded in 2022 with the desired outcomes. This was achieved by conducting onsite and interactive sessions with their staff.

311 Screening:
The Planning Property and Development Enforcement Services Unit (PPD ESU) has a process where complaints of illegal rooming houses can be reported by citizens via 311. The 2023 data is included in this report and is also available at: https://data.winnipeg.ca/Development-Approvals-Building-Permits-Inspections/Rooming-House-Enforcement-Activity/vk2f-xwp7/about_data.
In addition to the statistics regarding illegal rooming houses, the Public Service receives complaints from 311 regarding legally-established CRDs.

- 2024 - Fire Prevention had four complaints.
- 2024 - Licensing and Bylaw Enforcement had 87 complaints.
- 2024 - PPD ESU had 93 complaints.

Fire Safety Inspections:
The Fire Prevention Branch initiated annual inspections of licenced CRDs with Shared Facilities in November 2016 as per the Council decision of November 7, 2016.

CONSULTATION

In preparing this report, there was consultation with:

- Community Services, Licensing & By-law Enforcement for the number of licensed CRDs, By-law infraction information and statistics.
- Planning, Property and Development Enforcement Services Unit for their Rooming House Enforcement Activity document.

OURWINNIPEG POLICY ALIGNMENT

This report aligns with the *OurWinnipeg* Policy by promoting safety in buildings and enforcing property-related housing standards that create and promote safe living conditions for communities.

WINNIPEG CLIMATE ACTION PLAN ALIGNMENT

Consideration was given as to whether this report connects to the Winnipeg Climate Action Plan (CAP), and it was determined that the CAP is not applicable to this specific report.

WINNIPEG POVERTY REDUCTION STRATEGY

The information presented in this report aligns with and advances the Winnipeg Poverty Reduction Strategy (2021 – 2031) as follows:

This report aligns with the Winnipeg Poverty Reduction Strategy's **Guiding Principle to Promote and Maintain the Welfare of all Residents**, the **Life Pole of Affordable Housing** and the **10 Year Objective Goal 2 (D)** that **Existing affordable rental housing stock is maintained** and improved. Fire inspections ensure existing affordable housing stock is maintained to ensure life safety in these occupancies.
