ANALYSIS AND ISSUES

COLLABORATIVE PLANNING AND CONSULTATION

With the Public Service

- The applicant engaged the Public Service prior to submitting an application.

With the Public

- The applicant engaged with abutting neighbours and they have indicated their support.

COMPLETE COMMUNITIES DIRECTION STRATEGY 2.0

- The *Complete Communities Direction Strategy 2.0* (CCDS 2.0) is a citywide secondary plan that guides growth, development, and land use in the city of Winnipeg. The proposal aligns with the following goals and policies:

D1: Established Neighbourhoods

- Goal 1: 1.0 *Encourage compatible residential development within Established Neighbourhoods to build more Complete Communities and align with the City's residential intensification target.*
    - *1.1 Encourage residential development that positively contributes to neighbourhood character while expanding housing options for residents in a manner that is sensitive and complementary to existing development.*
- Goal 3: 3.0 *Ensure all communities provide a diversity of housing options and meet resident life-cycle housing needs.*
    - *3.1 Encourage a variety of housing types and tenures within Established Neighbourhoods to meet life-cycle housing needs and affordability ranges.*
    - *3.2 Encourage a mix of types, tenures and unit sizes within residential developments. Make provisions for unit sizes that can accommodate varying family sizes and multi-generational households.*

ZONING AGREEMENT AMENDMENT

The applicant has applied for an amendment to the Zoning Agreement under File. No. DASZ 57/1986.

- The current Zoning Agreement states under Clause 3:
    - *Every habitable building or structure constructed or located on any lot abutting the proposed Kildonan Corridor Right-of-way or Lagimodiere Boulevard including the Ham Street service road shall have a minimum rear yard set back of 27.5 metres (90.22 feet) to reduce the effects of traffic noise, as shown on Schedule "A" to this Agreement.*
- The ZAA would delete and replace Clause 3 with the following:
    - *Every habitable building or structure constructed or located on any lot abutting the proposed Kildonan Corridor Right-of-way (Future Chief Peguis Trail) or Lagimodiere Boulevard including the Ham Street service road shall have a minimum rear yard set back of 21 metres (68.89 feet) to reduce the effects of traffic noise, as shown on Schedule "A" to this Agreement.*

OTHER CONSIDERATIONS

Public Works

- Public Works has indicated support for the ZAA application.
- The rear yard setback is intended to provide space for an outdoor recreational area. The proposed sunroom will reduce this buffer/area, bringing the recreational area closer to the Future Chief Peguis Trail than originally intended, where higher noise levels may be experienced when and/or once the road is constructed.

SUMMARY

The Urban Planning & Design Division ***supports*** the Zoning Agreement Amendment for the following reasons:

- The reduced setback (68.89 feet) to the sunroom still maintains adequate safety and compatibility measures for residential development in proximity to the Kildonan Corridor Right-of-way (Future Chief Peguis Trail).
- Although the outdoor recreational area is reduced, the applicant is providing an indoor space (sunroom) to enjoy the outdoors.
- The applicant is aware of the potential higher noise levels when and/or once the Future Chief Peguis Trail is constructed.
- The building façade of the single-family dwelling itself maintains the 27.5 metres (90.22 feet) rear yard setback.

RECOMMENDATION

The Urban Planning and Design Division recommends ***approval*** of the Zoning Agreement Amendment for the following reasons:

- The application is consistent with the policies of *OurWinnipeg 2045* and *Complete Communities Direction Strategy 2.0.*
