EXECUTIVE SUMMARY

In 2022, Council approved the Tax Increment Financing (TIF) Policy (The Policy). The Policy provides grants of incremental property taxes to support certain developments.

The Policy requires an annual report to Council. The October 2024 administrative report served as the annual reports for 2022 to 2024. This serves as the annual report for 2025.

From 2022 to 2025, 37 TIF grants were approved. These grants total $79.7 million almost exclusively for housing related projects. Of these 37 grants, 19 were approved in 2025.

The TIF grants approved to date are expected to leverage over $1.9 billion of total capital investment. They are meant to support over 3,100 new housing units, including 1,550 affordable units.

The Policy has successfully addressed its key objectives, including:

- support for new housing;
- the redevelopment of heritage buildings and downtown surface parking lots; and
- support for transformative developments, including Portage Place Mall and the former Hudson's Bay Building.

Details on the TIF grants approved from 2022 to 2025 are in Attachment A.

RECOMMENDATIONS

That this report be received as information.

REASON FOR THE REPORT

The Designated Employee responsible for administrating The TIF Policy is required to produce an annual report on its metrics and outcomes.

IMPLICATIONS OF THE RECOMMENDATIONS

There are no implications to receiving this report as information.

HISTORY / DISCUSSION

In 2022, Council approved a Tax Increment Financing (TIF) (The Policy) to provide grants of incremental municipal property taxes to support certain developments.

The Policy enables the City to provide grants equal to 80 percent of the incremental municipal property taxes generated by development for up to ten years to support economic development initiatives including redevelopment of downtown surface parking lots, new or expanded businesses, downtown housing and redevelopment of heritage buildings.

The Policy also enables the City to provide TIF grants for up to twenty-five years for affordable housing projects as well as Transformative Developments, which are developments involving at least $100 million of investment situated downtown.

Council has authorized a total of $20 million of TIF grants under the Heritage and Economic Development Incentive Program (HEDI) to support economic development initiatives and $50 million to support affordable housing under the Affordable Housing Now (AHN) Program.

All TIF grants available under AHN have been conditionally allocated to projects and there is approximately $13.3 million left to be allocated under the HEDI program. TIF grants for Transformative Developments are incremental to those approved for AHN and HEDI.

Section 4.9 of The Policy requires an annual report on key metrics and outcomes supported by this Policy, which may include but not be limited to:

- The dollar value and duration of individual grants that have been approved
- The number of new housing units supported
- The number of new and expanded businesses supported
- The number and type of new full-time jobs supported
- The level of federal and provincial financial support leveraged
- The level of total investment leveraged

Thirty-seven TIF grants, totaling $79.7 million, were approved from 2022 to 2025, almost exclusively for housing related projects, which will be paid out to property owners over 10 to 25 years after the projects are finished. Nineteen of these grants were approved in 2025.

TIF grants approved from 2022 to date will leverage over $1.9 billion of total capital investment and support over 3,100 new housing units, including 1,550 affordable units.

In 2022, the Public Service set a goal to support at least 1,500 affordable housing units and redevelop at least two heritage buildings under The Policy. To date, 1,550 affordable housing units and four heritage building redevelopments are being supported by TIF grants, exceeding these goals.

Overall, the Public Service believes the Policy has been quite successful in addressing its key objectives including support for housing across the City, redevelopment of heritage buildings and surface parking lots as well as transformative redevelopment of Portage Place Mall and the former Hudson’s Bay Building.

Details on the TIF grants approved from 2022 to 2025 are in Attachment A.

FINANCIAL IMPACT

Financial Impact Statement
