2. New bus routes. This report makes many promises. As a test of this report's credibility, has anyone asked the city audit team to assess the promises made by Transit in the past 20 years, regarding ridership, costs and travel times? We have been told that BRT will be much faster, but the schedules show that each trip is 4 to 7 minutes slower on the BRT. We were told that BRT would increase ridership. Considering the population increase in the area, is ridership still down? Magically, the Manager of Finance says that this plan to waste $25ish millions on these changes will have zero impact on city finances, because it is "just a plan" and not "an approval"..
