DECISION MAKING HISTORY

On July 21, 2022, Council adopted a Sustainable Procurement Action Plan (the “Plan”). In addition, Council approved that the Public Service provide annual progress reports on the Sustainable Procurement Action Plan, by March of each year, to the Executive Policy Committee.

This Plan outlines the City of Winnipeg’s commitment to adopt Sustainable Procurement Practices, to intentionally recognize the work already being done by suppliers to create positive impact, and to amplify the positive environmental, ethical, social, and Indigenous impact that can be driven by enhancing fair, open and transparent purchasing by the City of Winnipeg.

A total of ten (10) actions were taken across one or more of the City’s Sustainable Procurement Program’s four pillars: environmental, ethical, social, and Indigenous.

The annual report summarizes the accomplishments in the Sustainable Procurement Action Plan (the “Plan”).
