I am so disappointed that the recommendation is to scrap the pilot bike lane project. The city has the materials and could easily implement the project this spring. That is what councillors kept telling us as they instituted more and more delays to safety upgrades after Rob Jenner was hit and killed by a driver. And now this is one more delay to implementing safety measures when cyclists and families and seniors and drivers need those safety measures now!! And to be honest, I don't actually believe that this is a delay. I believe that this is City Council getting rid of the project entirely, but not being honest enough to admit it.
