Comments
I do not support further delays to improving infrastructure on Wellington Crescent. Please follow the best practices recommended by the public service and implement the temporary infrastructure. Proceeding to permanent infrastructure without first having a pilot is reckless. It will result in a delays, and money being spent on something that may not be the right design. It will increase the chances of having permanent infrastructure that doesn't serve pedestrians, cyclists, or drivers well, and that increases the chance that council will later decide to the remove the permanent lanes.
