HISTORY/DISCUSSION

On November 20, 2013, Council amended the Local Improvement process by creating a pilot program for six years (2014-2019) whereby the City of Winnipeg will finance asphalt paving of granular lanes as local improvements to the maximum of 50% of the cost of the improvement; and approved that the $1 million Granular Lane Fund be used as a funding source for the City's share of the amended Local Improvement Program. On July 19, 2018, Council approved a six year extension to this program (2020-2024). On December 15, 2021, Council extended the program to 2027. The approval of the annual budget will extend the program to the five-year capital forecast.
