Subject: opposition to By-law 130/2004

Dear Chair and Members of the Executive Policy Committee.

I am in opposition to the application of the Proposed Plan Winnipeg Amendment By-Law No. 130/2004.

Reasons for Opposition

This new high speed truck thoroughfare will put my children at risk as they walk or ride their bikes to and from Bernie Wolf School, as well as when visiting friends after school. This new route will bring more traffic, noise and people into our area, possibly child molesters, and kidnappers. The crime rate in our community will also increase.

We already have traffic noise coming from, Regent, Dugald and Plesis, I do not want hear additional noise coming from your proposed route. It is bad enough that I have it on three sides.

This new proposed alignment would bring down the property value in the area.
From an environmental view, we would be losing Bradley Tall Grass Prairie, one of the only wheel chair accessible prairies in this area.

Why spend millions on a route that is not required, when old route is fine just as it is. When we built our house in this neighborhood, we did so because we felt this would be a safe place to raise our children, by going ahead with this proposed plan we would no longer feel that are children's best interests are being served.

Sincerely,

Joe Tymchen
