Winnipeg has service providers and departments which do a very good job of keeping us all safe. The WCFS seems to be completely redundant. The justification for this committee is to enhance public awareness of related issues. It is clear that it is failing to do that. The members invest a lot of time and talent in this group. Taxpayers invest a lot of money. Its written product in reports is just about zero. No report appears in the published Agendas; none are in the published Minutes of the WCFS. Most of the folks at city hall work. The ones who 'talk about work' tend to produce reports that tell us about that "talk". The outreach folks at WPS do far more to enhance awareness. I ask you to deny this request.
