Friends of Peanut Park Inc.
(Also known as) Enderton Park
Ruskin Row

Friends of Peanut Park Inc. was established over 20 years ago by neighbours to save and restore the park that had deteriorated into an abandoned vacant lot. It was overrun with flooding, vacant tree spaces, no gardens, old playground equipment, benches and picnic tables.

Today the park is Heritage Winnipeg walking tour destination. It has been brought back to its original (1902) design and beauty. Seven large gardens have been reestablished with a full-time gardener attending, 90 trees have been planted, new benches and picnic tables have been installed and a growing legacy fund established to insure continued maintenance in perpetuity. All this support for restoration including the annual maintenance and legacy fund has come from surrounding neighbours.

I am requestioning that the city exempts our organization from the annual $285.00 plus GST fee and allow us to reinvest that money in the wonderful city asset.
All the money we raise goes into the park.

Nick Logan
President
Friends of Peanut Park Inc.
