INVEST IN WINNIPEG'S PUBLIC LIBRARIES!

We, the undersigned, urge Mayor and Council to fully fund the library system in the 2024–28 budget, including:

- Saturday and Wednesday hours in all libraries year round
- Increased funding for Programming, Collections, and Technology
- Support for Community Connections space at Millennium Library and Safety Hosts across the system
- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

INVEST IN WINNIPEG'S PUBLIC LIBRARIES!

We, the undersigned, urge Mayor and Council to fully fund the library system in the 2024–28 budget, including:

- Saturday and Wednesday hours in all libraries year round
- Increased funding for Programming, Collections, and Technology
- Support for Community Connections space at Millennium Library and Safety Hosts across the system
- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

- Saturday and Wednesday hours in all libraries year round
- Increased funding for Programming, Collections, and Technology
- Support for Community Connections space at Millennium Library and Safety Hosts across the system
- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

INVEST IN WINNIPEG'S PUBLIC LIBRARIES!

We, the undersigned, urge Mayor and Council to fully fund the library system in the 2024–28 budget, including:

- Saturday and Wednesday hours in all libraries year round
- Increased funding for Programming, Collections, and Technology
- Support for Community Connections space at Millennium Library and Safety Hosts across the system
- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

INVEST IN WINNIPEG'S PUBLIC LIBRARIES!

We, the undersigned, urge Mayor and Council to fully fund the library system in the 2024–28 budget, including:

- Saturday and Wednesday hours in all libraries year round
- Increased funding for Programming, Collections, and Technology
- Support for Community Connections space at Millennium Library and Safety Hosts across the system
- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

INVEST IN WINNIPEG'S PUBLIC LIBRARIES!

We, the undersigned, urge Mayor and Council to fully fund the library system in the 2024–28 budget, including:

- Saturday and Wednesday hours in all libraries year round
- Increased funding for Programming, Collections, and Technology
- Support for Community Connections space at Millennium Library and Safety Hosts across the system
- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

INVEST IN WINNIPEG'S PUBLIC LIBRARIES!

We, the undersigned, urge Mayor and Council to fully fund the library system in the 2024–28 budget, including:

- Saturday and Wednesday hours in all libraries year round
- Increased funding for Programming, Collections, and Technology
- Support for Community Connections space at Millennium Library and Safety Hosts across the system
- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

INVEST IN WINNIPEG'S PUBLIC LIBRARIES!

We, the undersigned, urge Mayor and Council to fully fund the library system in the 2024–28 budget, including:

- Saturday and Wednesday hours in all libraries year round
- Increased funding for Programming, Collections, and Technology
- Support for Community Connections space at Millennium Library and Safety Hosts across the system
- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

INVEST IN WINNIPEG'S PUBLIC LIBRARIES!

We, the undersigned, urge Mayor and Council to fully fund the library system in the 2024–28 budget, including:

- Saturday and Wednesday hours in all libraries year round
- Increased funding for Programming, Collections, and Technology
- Support for Community Connections space at Millennium Library and Safety Hosts across the system
- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

INVEST IN WINNIPEG'S PUBLIC LIBRARIES!

We, the undersigned, urge Mayor and Council to fully fund the library system in the 2024–28 budget, including:

- Saturday and Wednesday hours in all libraries year round
- Increased funding for Programming, Collections, and Technology
- Support for Community Connections space at Millennium Library and Safety Hosts across the system
- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

INVEST IN WINNIPEG'S PUBLIC LIBRARIES!

We, the undersigned, urge Mayor and Council to fully fund the library system in the 2024–28 budget, including:

- Saturday and Wednesday hours in all libraries year round
- Increased funding for Programming, Collections, and Technology
- Support for Community Connections space at Millennium Library and Safety Hosts across the system
- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

INVEST IN WINNIPEG'S PUBLIC LIBRARIES!

We, the undersigned, urge Mayor and Council to fully fund the library system in the 2024–28 budget, including:

- Saturday and Wednesday hours in all libraries year round
- Increased funding for Programming, Collections, and Technology
- Support for Community Connections space at Millennium Library and Safety Hosts across the system
- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.

INVEST IN WINNIPEG'S PUBLIC LIBRARIES!

We, the undersigned, urge Mayor and Council to fully fund the library system in the 2024–28 budget, including:

- Saturday and Wednesday hours in all libraries year round
- Increased funding for Programming, Collections, and Technology
- Support for Community Connections space at Millennium Library and Safety Hosts across the system
- Increased staffing by 12 full-time-equivalents to support these changes

Funding the library and other life-sustaining services is a top priority for me. For only $3.30 a month for the average Winnipegger, we could have a healthier library! I support a 2% dedicated tax increase to ensure that these critical library services are funded.
