Getting patrol officers to where they are needed is important. Patrolling on bikes makes more sense than on foot. I have seen cops on bikes for many years in other cities. Instead of buying 900 watt bikes, why not 20 or 30 kw ICE (gas) bikes? They are 5 times as fast, and comparable in price. Doing the job well should be the goal. Buying the wrong stuff is never OK, even if it looks green.

In the table of traffic enforcement data, important numbers are missing. 1138 cell phone type tix; how many offenses were while the car was stopped, and thus not a significant danger?

Of the many thousands of DUI offenses, why were only 175 tix issued? Recall that I laid out a viable improvement plan for you here last year. You should know that WPS has strongly resisted any ideas to protect us better. You should be asking staff why, even if only in one of your non-public meetings.

Only 4 crash investigations are listed. Why is there no mention of the number of vehicle crashes, which was probably more than 100,000? Why are these reports silent on the fact that WPS walked away from investigating vehicle crashes nearly 30 years ago?

Public engagement (optional)

I consent to being contacted to participate in potential public engagement related to this matter.
Yes
