4. In the 18 months before PE was introduced, is anyone here aware that Senior Police staff were strongly against its use? They knew that it had proven very profitable elsewhere, but made those cities much less safe. They mentioned the benefits of enforcement by uniformed officers. Confirming Driver license and vehicle insurance info, screening for impairment, detecting proceeds of crime in the vehicle. Knowing these facts, will WPS return to real policing, to make us all so much safer? Your dependence on PE is making us all less safe in so many ways. In the thousands of new roadside stops, if you cut back on PE, you would find a lot of offenders. Please do not let the PE company's greed (and the corruption proven in other places) lead you further down this very bad path.
Throughout this report are income numbers that are missing the corresponding cost numbers. Members standing in a retail store, and handing out traffic offense notices brings in revenue, but at what net cost? Publishing only half the story does little to inform the Board or the public.
Overtime: Are staff levels now at optimum for early and mid career work? When members are assigned a lot of overtime in their last years of service, this boosts their pension benefits. Why was all of this data not published in this report?

Public engagement (optional)
