

MIMPCC

MANITOBA INTEGRATED MISSING PERSONS COODINATION CENTRE

Manitoba's innovative, province-wide missing persons framework:
setting a national standard for coordinated reporting and response.

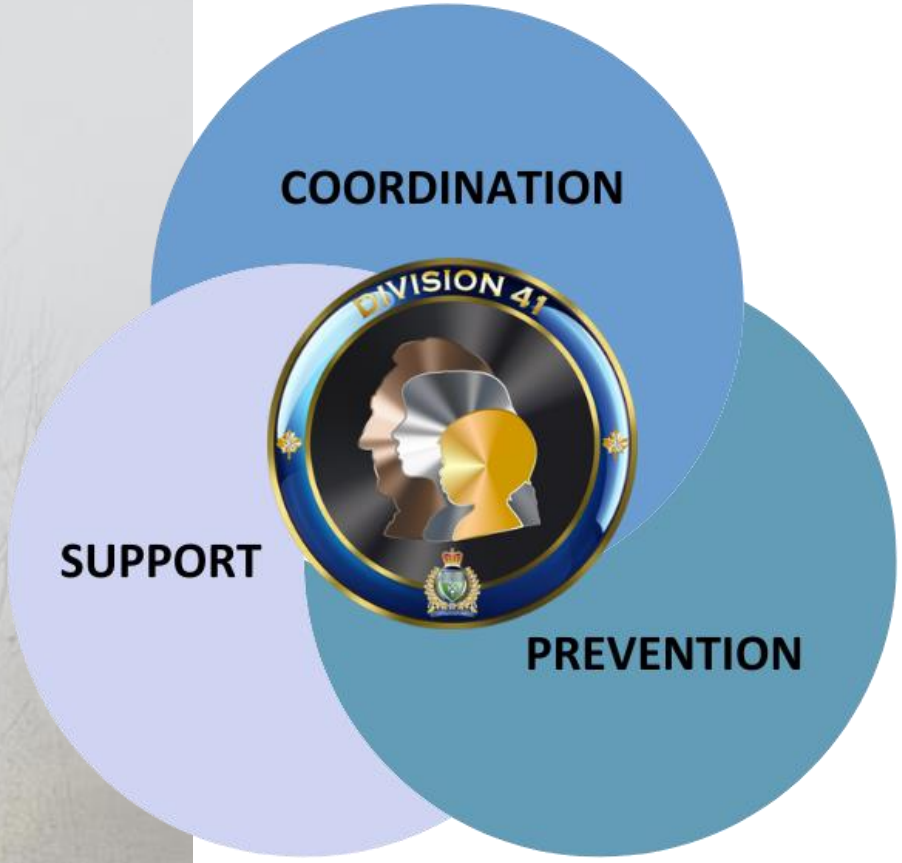

Building and implementing an integrated missing persons response framework in Manitoba took time and collaboration - anchored in a shared commitment to value the strengths of everyone at the table.

Together, we built an integrated approach that delivers stronger and more coordinated support between:

- *Multiple law enforcement agencies*
- *Government*
- *Families*
- *and Community Partners…*

...all working better ***together***

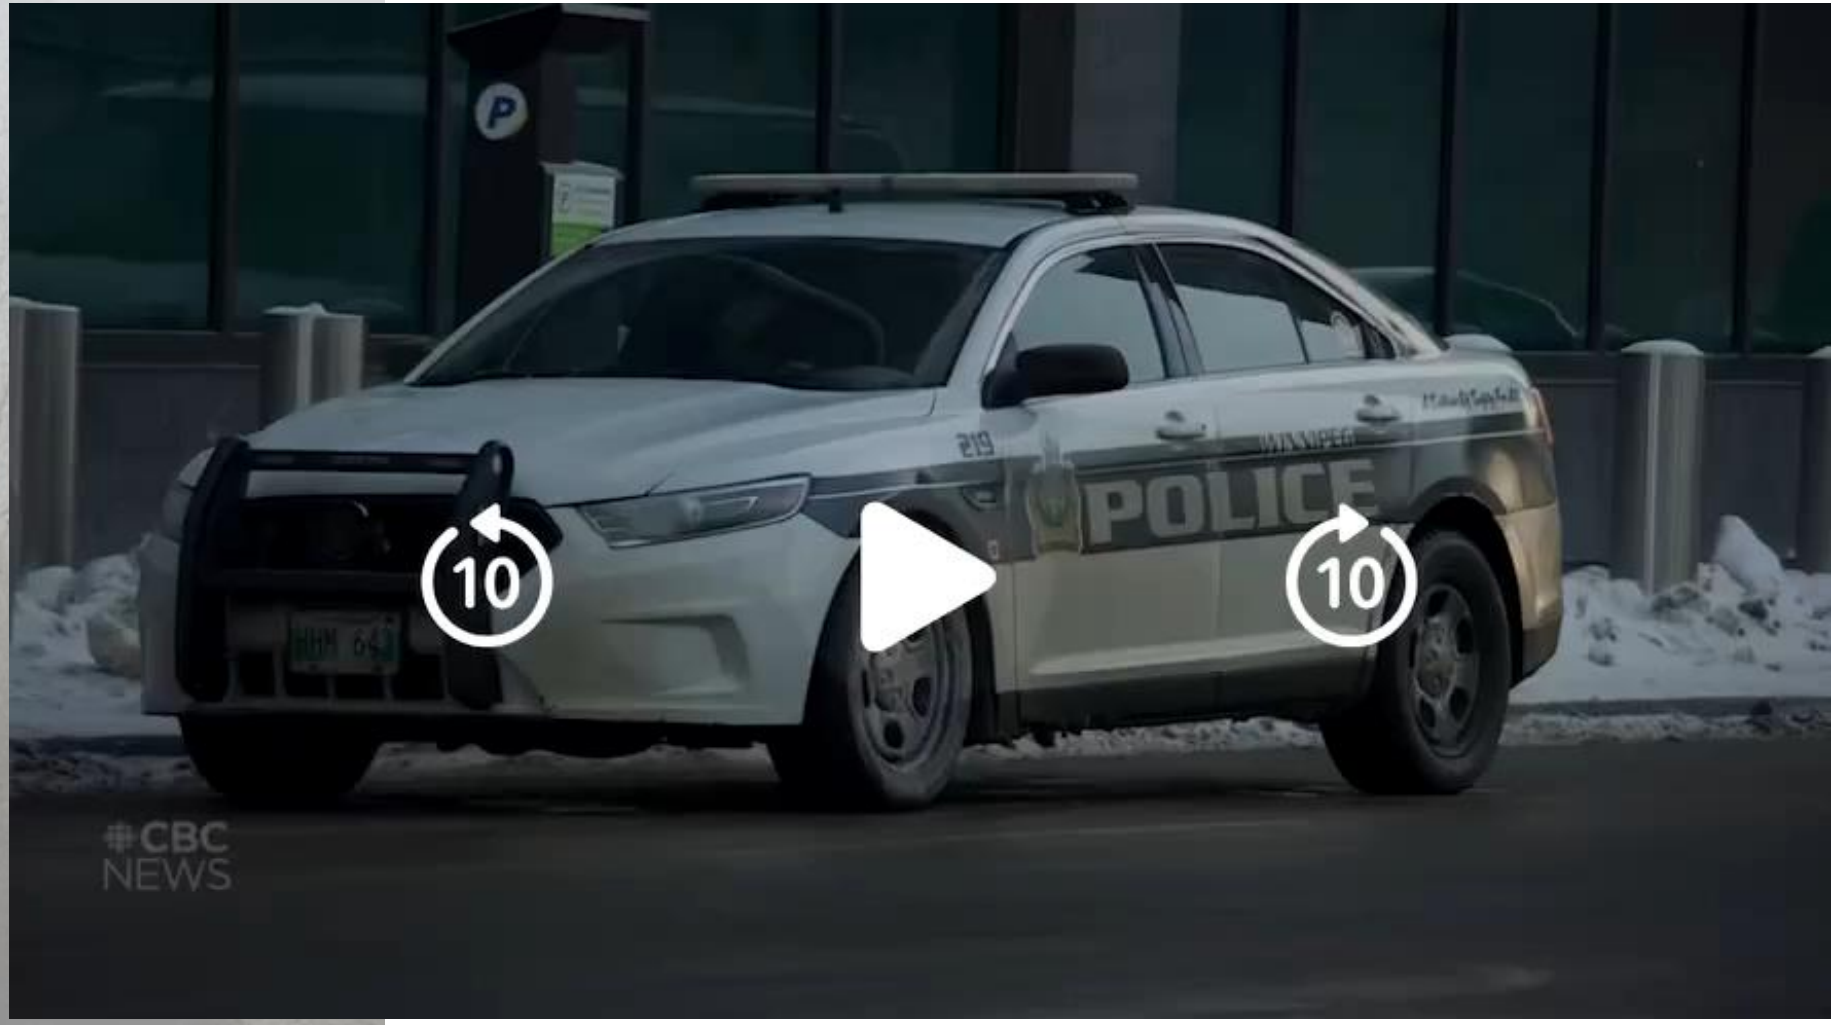

Nothing is more powerful than an idea whose time has come.

INTAKE

INTAKE – ROLES OF MISSING PERSON COORDINATORS

In MIMPCC, our Missing Person Coordinators are the subject matter experts in missing person cases, risk assessment, and the early stages of investigative work.

We handle every missing person report that comes into MIMPCC, maintain all the CPIC entries, and act as a central point of information for frontline officers, investigators, families, and legal guardians across Manitoba.

At the core of our work is consistency and a victim-centered approach — making sure that every interaction with families and care providers is grounded in clarity, compassion, and support.
